Dear Friends of Slovakia,

I am very glad to have the opportunity to invite you, through this publication, for a visit of our picturesque country in the very heart of Europe – Slovakia.

During 16 years of its independence, the Slovak Republic has achieved a great success that we could not dream about at the time of its birth. Today, as the country's highest representative, I can proudly declare that the Slovak Republic is a respected democratic country, a member of the European Union, NATO and many other international institutions. The Slovak economy, in spite of the hard impacts of the world financial crisis, is one of the fastest growing EU economies, which is also proved by the perspectives for the year 2009. Slovakia is now more resistant to the crisis impacts thanks to the introduction of the single European currency – the euro in the beginning of 2009, becoming the 16th member state of the Eurozone. I am convinced that we will be able to maintain not only our economic growth, but also the attractiveness of the Slovak environment to foreign investments through a prompt intervention by the Slovak government and effective measures to mitigate the impacts of the economic crisis. The adoption of the euro currency in Slovakia opens new opportunities also in the tourist segment, the

development of which is one of the priorities of our government.

I am very glad to be able to invite you for a visit of our beautiful Slovakia. A young, modern and dynamic country on the one hand, and a country of rich, centuries-old history and ancient culture on the other. This is the kind of Slovakia I want to welcome you to. Slovakia is literally a paradise for those seeking active rest in the mountains, combined with wellness stays and visits to spas with geothermal springs. Our "small big mountains" and our national symbol – the High Tatras – will fascinate you for the variety of their colours in all the seasons of the year. You can enjoy summer and winter sports here and, at the same time, visit our beautiful historic jewels recorded in the UNESCO world cultural heritage. Yet, the biggest treasure of Slovakia is its people, known for their hospitality and cordiality. Come and find out yourself that Slovakia is a country of rich folklore, folk art, unique traditions and habits admired by the whole world for their diversity.

Dear Friends,

Slovaks are proud of their country in the heart of Europe, and I will be extremely glad if you, too, take home a small part of this heart.

Ivan GAŠPAROVIČ
President of the Slovak Republic

**OFFICE OF THE PRESIDENT OF
THE SLOVAK REPUBLIC**

<http://www.prezident.sk>

Dear Readers,

First of all, I wish to extend my gratitude to the editors of this prestigious publication, who have given me the chance to share with you a couple of my ideas on Slovakia in today's complex global economic and political context, as well as on Slovakia's foreign policy.

Before anything else, I would like to note that Slovakia has recently had several successful years. The most notable achievements include: a robust, yet sustainable and healthy economic growth, which exceeded 10% in 2008; entry into the Schengen area at the end of 2008, enabling Slovak citizens to move freely and without restrictions through a vast majority of European countries; and last but not least, the adoption of the euro as the official Slovak currency on 1 January 2009. This last achievement currently represents the highest possible form of integration within the European Union. All of the accomplishments mentioned above are extremely important for Slovakia and its people, as they constitute a solid basis for our future development.

Slovakia has also reinforced its international status in recent years through active engagement in the efforts of numerous international organisations, such as the UN, the European Union, NATO and the OECD, as well as the Visegrad Four regional political group, and many others. I would like to once again recall Slovakia's 2006-07 non-permanent membership in the UN Security Council; the most renowned international forum entitled to decide on global peace and security issues. Being elected a Council member is considered by every country to be an enormous foreign policy achievement. Slovakia performed excellently in this position and proved that even a small country could contribute to resolving major international problems and to seeking compromise solutions.

Slovak foreign policy builds on an open approach and transparency, and attempts to facilitate dialogue and cooperation in compliance with the values of the European Union and the standards of international law. Last year, Slovakia also continued pursuing good relations with its neighbours. This represents a permanent attribute of our foreign policy that corresponds to our interests and reflects our geopolitical position and our cultural and historic ties.

Slovakia has actively cultivated its contacts with EU and NATO member states, as well as with other European countries. Our country is prepared for multilateral dialogue and cooperation with all countries that are recognised

by the international community, that comply with international legal standards and that are truly interested in mutual cooperation. In this context, Slovakia maintains very good, fair and useful bilateral political, economic and cultural relations with many countries on all continents.

Slovakia is an active member of the Visegrad Four (V4) group, an informal forum of four Central European countries (the Czech Republic, Hungary, Poland and Slovakia) that promotes the seeking of consensus and agreement on matters of the countries' common interest and joint solutions to problems and challenges faced by the Central European region.

Efforts pursued by Slovakia within European Union institutions deserve a specific mention. Slovakia supported the adoption of the Reform Treaty and actively helped complete the preparatory work for its adoption. Constructive approaches and proposals made by Slovakia helped the parties arrive at the final consensus and helped facilitate approval of the treaty by EU institutions. In addition, Slovakia continuously pursued and promoted its interests (and the interests of its citizens) in the European Union, in particular with respect to the ultimate removal of all barriers that impair the free movement of labour and services. The latter, however, have not been removed by all Member States yet.

Climate change and external energy security issues represented the most pressing challenges at the highest-level European forums and also became the focus of the foreign service. They are new elements in our diplomatic efforts. However, such an approach is necessary for us if we wish to maintain the solid positions Slovakia won during the complex process of its economic transformation in the 1990s and at the beginning of this century.

The economic dimension of diplomacy has by now become inherent in Slovak foreign policy, as specified in the Programme Statement of the Government of August 2006. The Slovak Ministry of Foreign Affairs views the economic dimension of Slovakia foreign policy as a set of coordinated activities undertaken by governmental and non-governmental institutions and business entities aimed at creating favourable conditions for the promotion of Slovak economic interests abroad.

In the context of bilateral relations, the key role of diplomacy with respect to international economic relations is to establish and main-

tain good contacts with individual countries, which would facilitate bilateral trade and more advanced forms of economic cooperation in line with other political criteria.

Foreign development aid is deemed by Slovakia as an opportunity to provide assistance to the recipient countries as well as an instrument for the promotion and accomplishment of its foreign policy objectives. Slovak development aid was provided to a selected group of beneficiary countries last year, in line with our medium-term development aid strategy that was fully accomplished by the end of the year. From 2004 to 2008, Slovak entities implemented more than 200 development projects in 16 priority countries on three continents, with a total value of EUR 26 million. Such specific and targeted assistance has reinforced our relationships with the partner countries and, at the same time, helped our businesses to establish contacts abroad.

Currently, we are witnessing extremely dramatic global developments. The global economy finds itself in turmoil. The financial system is going through a deep crisis, commodity markets are suffering from unpredictable price fluctuations, and international trade is faced with imbalances that pose risks to further development. All major economies are repeatedly reviewing their economic growth estimates and some of them are even on the verge of recession. The financial system crisis has gradually spilled over into other economic sectors. We must talk about overall conditions of the economy in the global context. The argument that a decline in economic activities in the world's traditional economic centres (the US and Europe) is compensated by a robust growth in the so-called emerging economies such as China and India simply is not convincing anymore. According to the most recent projections, the global economy is expected to grow only by 3% in 2009, compared to an over-

all growth level of 5% in 2008. In addition, it is impossible to make any definite predictions on how long the financial crisis will last and what actual effects it will have.

The financial crisis requires our joint, global-level action, since a healthy money market is imperative for the effective functioning of all other markets. On the other side the crisis may speed up the long-desired restructuring of the global financial system.

Slovakia is a small but extremely open economy with relatively limited links to the US economy; therefore the impact of these external factors will be felt to a lesser degree and with a certain delay. Slovakia is more tightly linked to EU markets. In the next couple of years, Slovakia's economic performance and development will to a large extent depend on the course taken by the economic recession in European markets. I believe that Slovakia, backed by the common EU economic environment, including the single European currency - the euro - will be able to withstand the crisis without any dramatic implications for its economy and people.

Dear Readers,

Our transformation efforts so far have demonstrated to the world Slovakia's persistence and vitality; Slovakia has been successful in its integration effort on the international scene and has won a firm position in the system of international economic relations. I firmly believe that this vitality will help us to overcome the obstacles that are ahead of us this year, and that the professional and business achievements of the readers of this publication will also contribute to avoiding the pitfalls of the crisis.

I wish for all of us that, come this time next year, we will jointly celebrate yet another successful year for Slovakia.

Oľga ALAGYEROVÁ
The State Secretary
of the Foreign Affairs Ministry

We want Slovakia to become one of the countries with the best business conditions within the European Union

A favourable business environment is the fundamental prerequisite of a long-term competitive strength and growth of each market economy. It is an environment where the state promotes and protects economic competition. With comparable intensity, it creates clear and stable rules, efficiently ensures abidance by such rules by all the market actors, and, at the same time, minimises the administrative barriers and requirements laid on entrepreneurs. In the recent years, public administration has definitely contributed, through its decisions and actions, to the improvement of the entrepreneurial environment in the Slovak Republic. In this respect, Slovakia has actually become a model for other countries, and ranked among the most reform-oriented countries.

It is without doubt that the business environment has a significant impact on the economic performance of the Slovak Republic. In 2007 and in the first half of 2008, the business sector developed in an environment of consolidated macroeconomic stability, achieving strong economic growth, increasing the employment rate and reducing the unemployment rate. Compared to the year 2006, the economic growth attained a record-breaking rate of 10.4 %. This result was mostly helped by the foreign demand increase (by 16 %) and investment growth (by 8.9 %). The unemployment rate fell to 10.3 % in 2007, and continued to gradually decrease to 9.0 % in 2008. The positive development in the business sector was accompanied by the expectations of new stimuli related to the process of Slovakia's integration into the European Economic and Monetary Union.

The high economic growth is to a great extent due to the successful foreign investments and launch of production by large industrial companies, concentrated mainly in the car and electrical industry. The global decline in the demand for car industry products as a result of the global financial crisis has been inevitably reflected in the decrease in performance of the Slovak economy at the end of 2008 in spite of the fact that the financial sector is in good condition and attained large profits in 2008.

On 01 January 2009, Slovakia entered into the Eurozone, adopting the single European currency, the Euro. It became the 16th Member State of this exclusive club. The country met the strict "Maastricht criteria" owing to the permanent and active efforts by the Slovak government and competent ministries, including the Ministry of Economy. The result can be evalu-

ated and assessed already today. The adoption of the Euro currency simplified the business relations, before affected by exchange rate risks. Just compare the currency exchange fluctuations in the neighbouring V-4 countries. The single currency is, at the same time, a stabilising element in the current global financial and economic crisis. While the currencies of the neighbouring countries have largely weakened, the fluctuation of the single European currency is negligible. Moreover, Slovakia did not follow the Slovenian path. The newest statistics show that the transition to the new currency has not been accompanied by the incremental price growth that occurred in other countries, and the statisticians have not observed any acceleration of the inflation so far. The introduction of the Euro currency has been literally "smooth", without major errors or complaints by citizens. The process of adopting the single European currency can thus be evaluated as very successful.

Fifteen years ago, when the Slovak Republic gained independence, hardly anybody believed in its economic success. Yet, our country gradually won international political recognition. Respected rating agencies, such as Moody's Investors Service, Standard & Poor's or Fitch, regularly increased Slovakia's rating. At present, all the three agencies assign to Slovakia an above-average rating with a stable outlook – Moody's Investors Service A1, Standard & Poor's A, and Fitch A+. Just recently, Slovakia has been discarded from the list of classified countries assessed according to the risk rate of export loans repayment. The decision was taken by OECD experts at their regular meeting in Paris at the end of January 2009. Slovakia was the only one from 32 monitored countries that managed to get an improved rating at zero level.

Yet, Slovakia is not an isolated island. With its open trade and economic policy it has become a part of the global economy. It is by rule then that the global financial crisis affects the Slovak economy, too. According to analyst estimates, the current GDP rate sees a palpable slow-down. The current estimate is 2.4 %, which is still a number listing the Slovak Republic among the economies with the highest expected growth among all the EU Member States.

The Slovak government is aware of its responsibility, but also of the restricted instruments that it disposes of in the fight against the global crisis. At the end of the past year and during the first weeks of the new year, the government flexibly adopted three action packages with the main aim to minimise the impacts of the crisis on the economy and on the living standards of the Slovak citizens.

The measures are targeted on the individual economic policy sectors, being specifically tasks in the field of fiscal policy and structural policies. Aiming at the promotion of purchases of goods and services and, hence, elimination of production limitation and mass lay-outs, the measures focus on the actual launching of Private Partnership Projects and on consistent and accelerated drawing of resources from the EU structural funds. The anti-crisis measures also include an increase in the non-taxable part of the personal income tax base, and reduction of the period for returning excessive VAT amounts. Among other measures of the "action package" is the increase in the minimum input price for tangible and intangible assets for the purposes of depreciation in relation to the income tax, reduction of the write-off time for certain types of tangible assets, component write-offs etc.

In respect of the development of international economic cooperation, the amendment to the Act on Investment Aid will be of interest. This amendment is fit to the needs of domestic and foreign investors. Among others, it will provide them with an opportunity to obtain investment aid, in the case of minor investments, to acquire non-current tangible assets and non-current intangible assets for industrial production projects, as well as for tourism development projects, as it has been in place by now. Moreover, the amendment to the Act on Investment Aid lowers the limit for the acquisition of new production and technological equipment for production purposes to a minimum level of 40 % of the total value of the acquired non-current tangible and non-current intangible assets in the industrial production sectors, and to a minimum level of 20 % in the tourism sector. This measure will also support less sophisticated investment projects where the labour force is the decisive agent. These changes were adopted as temporary measures for the period from 01 April 2009 till 31 December 2010.

The measures under preparation include the provision of incentives for research and development conducted by entrepreneurs. The business will now have broader possibilities to obtain assistance for projects reducing the

energy demands in production and services. Citizens, too, will be able to obtain assistance for projects reducing energy demands of dwellings and for the use of renewable energy sources. The proposed measures specifically focus on promoting the aggregate demand, and are supplemented with further measures to improve the business environment. All these changes aim at positively influencing the environment to renew the dynamic growth of the Slovak economy after the global crisis is over.

A Committee for Monitoring the Impacts of the Global Crisis on Entrepreneurs meets regularly at the Ministry of Economy of the Slovak Republic, analysing the situation and the changes "on site". Except for the mapping of the up-to-date situation as for the development of the impacts of the financial and economic crisis, the "Committee" focuses on other areas, too. The Committee members follow and evaluate the changes in the field of employment, economic management efficiency, marketing opportunities, export ability, and assess the deviations in the particular economic sectors. The Committee is composed of representatives of the Ministry of Economy and relevant representatives of central state administration bodies, the National Bank of Slovakia, employers' unions and trade unions, Association of the Towns and Municipalities of Slovakia, and representatives of small- and medium-sized businesses, as well. Based on its findings, the Monitoring Committee has the right to propose further specific measures to minimise the possible negative impacts of the crisis.

This year, the government will spend, besides the funds aimed at development projects, another 332 million euros to cope with the impacts of the global crisis. These additional resources will be obtained through restrictive measures in the state administration. The aim is clear and precise: to preserve the economic growth and employment at the maximum level possible; minimise the damage on the Slovak economy in the most critical phase of the global economic crisis; and to prepare the economy for its run-up after the crisis has been overcome.

Lubomír JAHNÁTEK
Minister of Economy of the Slovak Republic

Total area:	49 035 km ²
Capital:	Bratislava
Length of state border:	1 672 km
Population:	5 379 455 (as of 31. 12. 2008)
Political system:	Parliamentary democracy
Official language:	Slovak
Currency:	Euro, 1€ = 100 cents
Population density:	109 (per 1 km ²)
Time zone:	Central European Time (GMT +1 hour)
Country Telephone Code:	++421-

Location:

Slovakia is located in Central Europe. The relief of the country is characterised by great differences. In central and northern Slovakia the countryside is hilly, it is covered with the Carpathian mountain range. The countryside of the southern and eastern Slovakia is low.

Climate:

The territory of Slovakia is situated in the mild climatic belt with regular alternation of four seasons of the year. The average temperature is in winter - 2° C and in summer +21° C. January is the coldest month with night temperatures -10° C and -15° C, the warmest month is July with a daily maximum temperature of approximately +32° C.

National Holidays:

January, 1 st	Establishment of the Slovak Republic
July, 5 th	St. Cyril and St. Methodius Day
August, 29 th	Slovak National Uprising Day
September, 1 st	Slovak Constitution Day
November, 17 th	Day of Fight for Freedom and Democracy

Public holidays:

January, 6 th	Epiphany (The three Sages and Christmas Holiday of Ortodox Christians)
March/April	Good Friday, Easter Monday
May, 1 st	Labour Day
May, 8 th	Triumph Over Fascism Day
September, 15 th	Lady of Sorrows Day
November, 1 st	All Saints Day
December, 24 th	Christmas Eve
December, 25 th	Christmas Day
December, 26 th	Second Day of Christmas

Important Phone Numbers:

158 (112) Police	0961 011111	Foreigner's Police
155 (112) First Aid	1181	Information on Telephone Numbers
150 (112) Fire-Service	12149	Information on International Telephone Numbers

The national symbols of the Slovak Republic are the national emblem, the national flag, the national seal and the national anthem.

The national emblem of the Slovak Republic has a red, early Gothic shield with a silver double cross mounted on the central peak of the blue three hill group.

The national flag of the Slovak Republic is composed of three horizontal stripes - white, blue and red (with white at the top, followed by blue and red). In the front section of the national flag is the national emblem of the Slovak Republic.

BRATISLAVA : SLOVAKIA'S MOST WESTERN CITY

Bratislava – the capital city of Slovak Republic - is one of Europe's oldest cities and yet – since 1993 – still one of the youngest European capital. In addition, Bratislava was the coronation town of the Habsburg monarchy for almost 250 years. It is the world's only capital whose territory adjoins two neighbouring countries and, at a distance of only 60 kilometres from Vienna, it is one of the 'twin cities', the continent's two capitals situated most closely to each other.

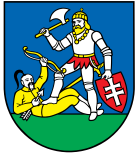

In the 20th century, Bratislava quickly developed into a metropolis with about half a million inhabitants and a leading centre of the economy. Today, Bratislava is one of the most rapidly growing urban regions of Europe. The Slovak capital has gained a reputation above all in the sectors of mechanical engineering and electronics, but also in the automotive industry. A major cultural centre, Bratislava not only offers numerous historic monuments in its old city – the young capital is also the intellectual and artistic centre of Slovakia and an internationally well-known and much-loved venue of festivals, theatre performance, concerts and musicals. As a hub of science and research, it is moreover home to four of the country's biggest universities as well as the overwhelming majority of Slovak research institutions.

City of Bratislava is a part of the Bratislava Region with its approx. 600,000 inhabitants. It comprises the City of Bratislava as well as its environs including the Little Carpathians and the district capitals of Malacky, Pezinok and Senec. The region is the most prosperous part of Slovakia with a per-capita gross regional product that is about double the Slovak average and also above to the European average. Roughly one fourth of Slovakia's economic resources are concentrated here. The region has evolved into a key biotechnology and automotive industry hub; already in 1992, Volkswagen set up a production plant in Devínska Nová Ves. While the service sector plays the most important role in urban Bratislava, industries such as mechanical engineering and electronics are mostly situated in the environs of the capital. The Danube and Morava rivers as well as the Little Carpathians provide the most important recreational areas for city-dwellers; moreover, one of Slovakia's key winegrowing areas can be found around Pezinok.

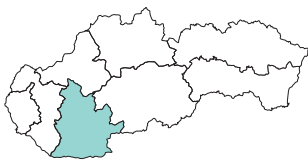

For more information on opportunities in Slovakia's capital city, visit us online at www.cityofbratislava.eu or contact us directly at marketing@bratislava.sk.

 **BRATISLAVA**

THE NITRA REGION

The Nitra Region stretches in the south-west part of Slovakia. The relief of the country is predominantly of the lowland character created by the flat and hilly country. It belongs to the hottest areas of Slovakia. The north lining of the area is created by the robust mountain ranges of

the Považský Inovec and the Trábeč; the north-east is lined by the foothills of the Pohronský Inovec and the Štiavnica

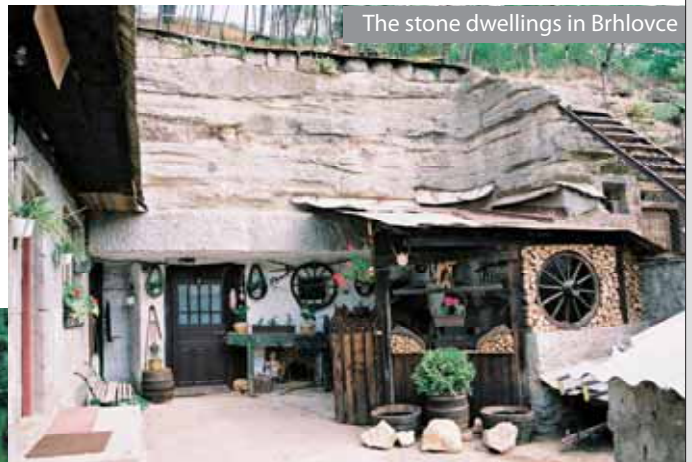

Basic information:

Capital city: Nitra
Neighbouring autonomous regions: Trnava to west, Trenčín to the north, Banská Bystrica to the east, the Hungarian Republic to the south
Number of districts and their administrative centres: 7 (Komárno, Levice, Nitra, Nové Zámky, Šaľa, Topoľčany and Zlaté Moravce)

The manor houses in Topoľčianky

The stone dwellings in Brhlovice

The Nitra castle

monument. It is the seat of the bishop for the Diocese of Nitra. The central landmark is the Cathedral of St. Emmeram, which consists of three churches: one Romanesque, one Gothic and one Baroque. In 2007 the first diocese museum in Slovakia was opened in the castle.

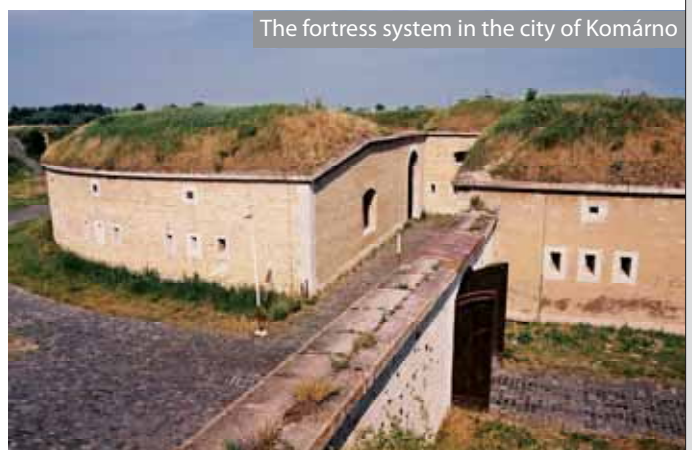

The most famous of **the manor houses** is the one in Classical style in **Topoľčianky** surrounded by a landscape park with rare exotic trees and

Mountains and in the south by the mountains range the Burda. The area of the region is a part of the river basin of the European large stream the Danube. Its feeders are the river Váh with the Nitra, the rivers Hron and Ipel'. However, the river Nitra with its feeder, the river Žitava, is an axis of the region. The largest part of the area in the south-east and in the south is covered by the quality agricultural soil.

Total Area: 6.343 km²
Population of the region: 714 600 inhabitants
Population density: 112 inhabitants per km²
Number of towns: 15 (approx. 48, 5% of the population)
Number of villages: 339

The best of Nitra region

Nitra castle is the most dominating feature in the city of Nitra and a national historic

The fortress system in the city of Komárno

The Kolárovo Water Mill

shrubs and an Art Nouveau hunting lodge, which is one of the most beautiful in Slovakia.

Some of the most remarkable relics of folk architecture include without doubt **the stone dwellings in Brhlovce**. The stone dwellings originated during Turkish invasion and served to protect the village's inhabitants. The dwellings were carved into the tufa rock. The museum is located in a two-storey building fit into the rock, where individual rooms document how the people of Tekov lived.

The fortress system in the city of **Komárno** is the largest preserved defensive complex in all of Central Europe, with the fortifications extending to the other side of the Danube and into Hungary. Komárno's fortress system, in the spirit of its motto "Nec arte nec Marte" (neither by trick nor by force), has never been beaten.

The Kolárovo Water Mill - the nature preserve around a floating water mill is situated in the city Kolárovo. Water mills are a technical rarity and were used to grind corn grown near the Danube and Váh. The water mill exhibited is an exact historical replica

and is full operational. The nature preserve includes a nascent open-air museum of folk culture and how people there lived.

The Mlyňany Arboretum is one of the largest botanical gardens in central Europe. Within an area of 67 hectares more than 2.300 types of rare wood can be found.

Another great attraction is **the Wisent preserve** to be found north of the village of Lovce in the Zlaté Moravce district, founded in 1958 for the purpose of acclimatizing the European wisent to the conditions of a breeding farm.

The Topoľčianky National Horse Breeding Farm is among the world's best known stud farms, breeding the Lipizzaner, Hucul and

Arabian aristocratic horse breeds and also the Slovakian Warmblood. The National Breeding Farm includes a unique hippology museum that, in addition to its historical exhibitions, focuses on using documentary material and photographs to preserve a tradition of horse breeding for further generations.

In the region of Nitra there is rich a great wealth of the natural thermal waters, the curative effects of which became the basis for building

region, the Nitra region and the Lower Váh region.

The thermal water in the Podhájska is salty and it has similar effects like the water from the Dead Sea. It beneficial effects the diseases if the motoric apparatus, respiratory and cardiac-vascular system. It is rich in iron, magnesium, calcium, sulphates and phosphates.

The Vadaš is the largest thermal swimming pool in Slovakia. The pools are filled with curative water that acts against breakdown of the

The Prešov Region

**PREŠOV
REGION**

Area: 8,993 km² (18.3% of the area of the Slovak Republic)
Inhabitants: 801,939 (14.8 % of the area of the Slovak Republic)
Population density: 89 inhabitants per 1 km²
Capital city of the region: Prešov

The territory of the Prešov Self-Governing Region houses an outstanding number of unique historic monuments along with undisturbed natural wealth.

Under its plan to identify the unique localities of the region, the Prešov Self-Governing Region announced a poll "Seeking the seven wonders of the Prešov Region". The aim of the poll was to find out which localities the citizens consider as the most beautiful and most interesting. The poll, in which almost 10,707 citizens participated, was conducted from 23 October 2008 to 20

January 2009. Get acquainted with the seven wonders of the Prešov Region – as decided by the citizens of the region.

the most sophisticated town fortifications in the Middle Ages, is also very unique. In 2000, Bardejov's historic centre was included on the UNESCO world heritage list.

The Ľubovňa Castle

The Ľubovňa Castle was built in the second half of the

and king of Madagascar Móric Beňovský is also connected with the bright history of the Castle, imprisoned there in 1768.

Today, there is an observatory with a 360° view of the Castle surroundings on the 6th floor of the Gothic tower Nebojsa.

Bardejov

Bardejov is one of the most beautiful towns in Slovakia. At the turn of the 14th and 15th century, trade and crafts got this Upper Šariš town to the pedestal of fame and wealth. The most important monuments are St. Egidius Basilica Minor with a unique collection of eleven wooden winged altars, and a Gothic-Renaissance building of the Town Council. Bardejov's fortification system, one of

13th century in the Northern bordering area of Hungary, serving for protection of the important trade route leading to Poland. Hungarian and Polish rulers held frequent meetings there. In 1412, King Sigismundus of Luxemburg pledged the Castle together with 13 towns of the Spiš region to the Polish king Vladislav II. In 1656 – 1661, the Polish coronation jewels were deposited there. The adventurer

The High Tatra National Park

The oldest national park in Slovakia, officially proclaimed on 01 January 1949. It is formed by the highest mountainous group within the Carpathian Arch. The highest peak is the Gerlach Peak (2,655 above sea-level). TANAP is subdivided into the Eastern Tatras and Western Tatras. The total area of the national park

is 73,800 ha. Almost five million of tourists visit the park each year. The hiking trails network is approximately 600 km long. Together with the Polish national park, the Tatras

voča in 1507-1518. It is made of basswood and is 18.6 m tall and 6.2 wide. The altar wings are decorated with relieves on one side and panel paintings on the other. The altar retable

have been listed as a UNESCO biosphere reservation. There are more than 170 mountain tarns in the High Tatras formed in glacial kettles.

Master Paul's Altar

The most important and a very unique monument of the town of Levoča is the Church of St. Jacob with eleven Gothic and Renaissance winged altars, including the tallest Gothic altar in the world. The unique late-Gothic altar of Virgin Mary and St. Jacob the Apostle, the tallest in the world, was made in the workshop of Master Paul from Le-

shelters monumental statues: the Holy Virgin with child, St. Jacob the Older, and St. John the Apostle.

A complex of wooden churches

The wooden religious buildings of North-East Slovakia include the churches of Eastern ordinance ("cerkvy") and Western ordinance, and are situated in the districts of Bardejov, Humenné, Prešov, Snina, Stará Ľubovňa and Svidník. There are 26 wooden churches in total within the territory of the region. In 2008, a selection committee

included the Roman-Catholic Church of St. Francis of Assisi in Hervartov (1500), the Evangelical Articulate Church in Kežmarok (1717), the Greek-Catholic Church of St. Nicholas in Bodružal (1658), and the Greek-Catholic Church of St. Michael the Archangel in Ladomírová (1742) in the UNESCO list.

The Pieniny National Park

The area of the national park is 3,750 ha. Even though the Pieniny mountains are not big in dimension, the 35 km long mountain range is one of the most beautiful and precious natural areas in

towns in Slovakia. The main square retained its medieval rectangular form (3:1) and is one of the largest squares of this type in Europe. Together with the preserved Renaissance houses it shows evidence of the wealth of the town in the Middle Ages. The town is surrounded by a monumental fortification system. It is almost fully preserved: six of the 15 bastions and towers still exist, including three entrance gates: the Košice Gate, the Polish Gate and the Menhard Gate. From the 16th century up to 1922, Levoča was the capital of the Spiš District. In 1806-1826, Anton Povolný, an

Central Europe. The rafting on wooden rafts down the Dunajec river canyon is a unique attraction that one cannot experience anywhere else. Nineteen specially protected nature areas in total were proclaimed within the PIENAP territory.

Levoča

Levoča is an urban historical reservation. Thanks to the number of monuments and artistic jewels it is one of the most beautiful historic

architect from Eger, built an imposing office building – the Great District House, considered as the most beautiful district house in former Hungary.

TRENČÍN REGION

The Trenčín self-governing region creates a particular part of the Slovak Republic. It lies in its western part and borders with the Czech Republic.

Trenčín Region is located on the main development axis. Transport and technical infrastructure corridors of multi-regional importance are passing through region called Považie.

Regional Seat: Trenčín

President: Pavol Sedláček

Number of districts and their administrative centres: 9

Bánovce nad Bebravou, Ilava, Myjava, Nové Mesto nad Váhom, Partizánske, Považská Bystrica, Prievidza, Púchov, Trenčín

Population density: 133.2 inhabitants per km²

Population: 599,847 inhabitants

Total Area: 4,501 km²

Number of towns: 18

Number of villages: 276

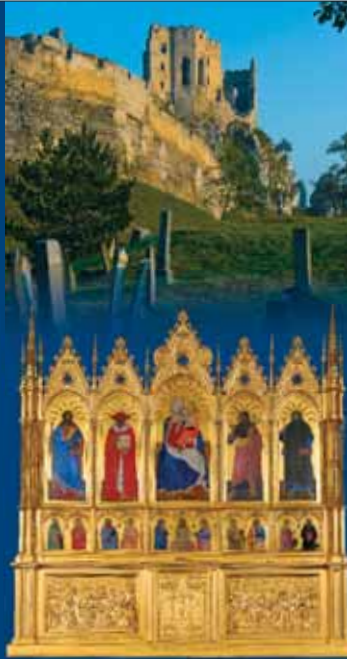

Country relief is created by valleys and river basins, of which the most famous are Váh and Nitra. Highlands gradually continue to uplands chains as White Carpathians Mountains, Small Carpathian Mountains, Považský Inovec, Strážovské vrchy, Javorníky, Vtáčnik and rocks of Malá Fatra, Kremnické vrchy and Tríbeč Mountains. Valleys, forests and high cliffs are magnets for visitors who can find picturesque recesses, panoramic views, extraordinary conditions for year-long hiking, biking, fun skiing, fishing and other sport activities. Admirable are the highest hills of Kľak (1351m) and Inovec (1042m) mountains, the narrowest limestone rock canyon in Slovakia Manínska gully, Kostelecká gully with rock shape called Roof of Slovakia, Vršatecké cliffs, water basins in Dubník, Nitrianske Rudno, dam Nosice, recreation area Zelená voda, etc. Valuable „presents of the nature“ are therapeutic thermal spas of Bojnice, Nimnica and Trenčianske Teplice.

Historical occasions that have happened in Trenčín region belong to the most important in the Slovak history. Strategic location within the country and in the Central Europe caused that many castles, manor houses, mansions and others were built in the past, here. Some of them stayed well preserved, some remained only as romantic ruins, but both still attract many visitors. These are Trenčín Castle, Beckov Castle, Čachtický Castle - famous as a seat of bloody countess Alžbeta Bátory, Tematín Castle, Považský Castle, Ledníca Castle, Bojnice Castle – the most visited cultural landmark and museum in Slovakia, manor houses in Brodzany, Klátová Nová Ves, Čereňany, Uhrovec, Brunovce, Orlové, Jasenica, Lednické Rovne and the others. Region is rich on landmarks of sacral architecture, too. Roman church of Saint John, the Baptist in Pominovec from the 12th century, functional church in Partizánske and many other valuable roman, gothic and baroque churches and chapels charm the visitors. These features make towns and villages lovely and unique.

The town Trenčín is a seat of the Trenčín self – governing region. It is one of the oldest places in Slovakia called „Pearl of Považie“. It stretches on both banks of the river Váh. The charm of the town consists in unique partially preserved fortification that creates collection of medieval town architecture on the central square, baroque church of St Francis Xaverius, Parish church of the Birth of Virgin Mary with carner and synagogue located under the monumental Trenčín Castle. An important ancient document is the famous Roman inscription on the Trenčín Cliffs dating from 179 A.D. It is the most northern epigraphical landmark preserved in situ. The town and its surrounding offer many options for the sociable, cultural and sport activities.

Myjava and its surrounding region is a unique ethnographical locality with its own folk architecture and folklore. Folklore traditions are being preserved by folk ensembles and reeve's yard Gazdovský dvor in Turá Lúka. Reeve's yard presents year-long traditional forms of life and living in Myjava region.

Several personalities were born in the Trenčín region. **Milan Rastislav Štefánik**, significant Slovak scientist, politician, general of French army and founder of the first Czechoslovak state was born in Košariská. His mound is one of the top works of an architect Dušan Jurkovič and it belongs among jewels of memorial architecture.

Ľudovít Štúr, another significant nationalist, codifier of literary Slovak and politician and **Alexander Dubček**, an important person of modern Slovak history were born in the same house in the village of Uhrovec. This one is being used as a museum now.

Specials

ZOO Bojnice is located in attractive natural environment right next to the Bojnice Castle in this spa town. It is the biggest and the most visited ZOO in Slovakia. 2000 animals and about 400 species are bred on the area of 42 hectares, there. It is engaged in several European programs to save endangered animal species.

Observatory of Partizánske is the second most important observatory in Slovakia. It has prepared various undertakings especially for youth and public for 2009 in connection to International Year of Astronomy, which launched UNESCO for this year.

A lot of accommodation, gastronomic and cultural facilities offer comfort, refreshment, relax and entertainment in the Trenčín self-governing region. There are public international airport in Prievidza and public internal airport in Slávnica. Both airports provide sightseeing and sport flights. Highway D1 passes through the region.

Welcome to the Banská Bystrica region

Total Area: 9 455 km²
Population: 658 386
Regional capital: Banská Bystrica
Number of districts: 13

Banská Bystrica Region

One of the largest self-governing regions in Slovakia. It is located in the southern part of NUTS II – Central Slovakia. As regards the qualities of the regional and natural environment, it belongs to the most important regions in Slovakia. Natural protected area is the largest in Slovakia.

Region of Attractions

- Advantageous geographical position, directly in the heart of Slovakia.
- Excellent natural and climatic conditions for the development of winter, summer tourism and agrotourism.
- Enormous national cultural heritage of the region takes the form of over 1700 national cultural monuments.
- Unique medieval history in central Europe dating back to 13th century.
- Spas with thermal and healing springs.
- Numbers of state natural reservations in which numerous protected natural creations and localities could be found.

National Parks

Low Tatras, Slovensky Raj, Muranska Planina and Velka Tatra,

Natural Protected Areas

Stiavnické Vrchy, Cerova Vrchovina and Polana, our highest volcanic mountain ridge. Since 1990, the territory has been declared biospheric reservation under the UNESCO – Program “Man and Biosphere”.

Spas

The existence of thermal healing springs offers significant opportunities for the development of tourism. Nervous, kinetic, and digestive disorders and cardiovascular diseases are treated in the Sklené Teplice, Dudince, Sliač, Kováčová and Brusno spas.

Urban Monumental Reservations

In the last two decades foreign visitors are attracted by renovated urban monumental reservations in Banská Bystrica, Banská Štiavnica and Kremnica. The Banská Štiavnica city, together with its surrounding was inscribed on the List of World Cultural and Natural Heritage of UNESCO. To other interesting places belong castles in Zvolen, Viglaš and Slovenská Ľupča; fortification in Bzovík; wooden church in Hronsek; St. John’s church in Krahule, where the geographical centre of Europe is located; folk architecture of the former mining settlement Špania Dolina; attractive Čiernohorská narrow - gauge railway in Čierny Balog.

Educational Establishments

The system of 338 elementary schools, 25 grammar schools and 61 secondary vocational schools provides the base for formal education in the region. There are also three universities in the region. The Academy of Arts in Banská Bystrica, the Technical

University in Zvolen and the Matej Bel University in Banská Bystrica.

Transport

The region is connected to the international roads and railway network. The total length of roads is 3 159 km. The area is considered as an important junction connecting the west and east of Slovakia and north-south transit route from Poland to Hungary.

Regional Economy

The industrial sphere is highly diversified in Banská Bystrica region - Metallurgy, Mechanical, Engineering Industry, Wood-processing Industry, Chemical and Pharmaceutical Industry, Food-processing

Industry, Paper Industry, Glass and Ceramic Industry, Textile Industry.

The deposits of ore raw materials, like gold, silver, copper, and zinc are historically known to be found around Banská Bystrica, Banská Štiavnica and Kremnica

The non-metallic raw materials play important role in the regional economy. There are several quarries of building stones in the region such as limestone, dolomite limesto-

ne, ceramic clay, brick earth, gravel and gravel sand, basalt and pearlite. Very important are also resources of wood substance.

10 Reasons Why to Invest in Banská Bystrica Region

- Central European hub
- Political and economic stability
- 19% flat tax rate
- Availability of highly skilled workforce
- Low labour costs vs. High labour productivity

- Liberal Labour Code
- Large selection of industrial land and offices available for purchase/lease
- Strong engineering tradition
- Growth in the region
- Infrastructure growing steadily

A Region Full of Inspiration

The Košice Region

The **Košice Region** (www.vucke.sk) is an administrative unit which includes four historical regions – Abov, Spiš, Zemplín and Gemer. Each historical region is rich in traditions and customs which are further enhanced by the hospitality of the locals of each region. The Košice Region possesses some of the most fascinating sites in Slovakia that no visitor should miss.

Area: 6,752 square kilometers
Population: 769,969
Number of towns: 17
Number of municipalities: 440

eastern Slovakian metropolis of culture and arts, the city of Košice is also applying for the 2013 European Capital of Culture (www.kosice13.sk).

Two major protected areas are situated within the Košice region. **National Park Slovenský raj** (Slovak Paradise: www.slovenskyraj.sk) covers the southern and south-eastern part of Spiš region. Visitors can admire a variety of deep canyons, waterfalls, and other geographical formations.

National Park **Slovenský kras** (**Slovak Karst**: <http://www.slovensky-kras.eu>) lies in the southern and south-eastern part of the Gemer region. Slovak Karst has been listed in the worldwide network of the **UNESCO Biosphere Reserves**. Several unique caves, such as Domica, Ochtinska, Jasovska, Gombasek are also open to tourists and provide extraordinary underground scenes and experiences (<http://whc.unesco.org/>).

The cultural and historic monuments of Gemer and Spiš are scattered along the Gemer and Spiš branch of the **Gothic Route** (www.gothicroute.sk). This region is home to mountainside castles (Spišský hrad, Krásna Hôrka), well preserved historical town squares (Spišská Nová Ves, Rožňava), and several museums and cathedrals (Spišská Kapitula, Betliar). Other historical gems of the areas in-

in the village of Ruska Bystrá both built in the beginning of the 18th century (www.muzeum.sk).

The Zemplín region is also home to a unique **guitar museum**. There are only two such museums in the world – one in Nashville in the U.S. and the second in the small town of Sobrance with a collection of more than 200 guitars from 1947 to 1980 (<http://www.slovakspectator.sk/clanok-10662.html>).

Unique wooden church wick is also listed in Unesco cultural heritage Ruská Bystrá.

clude village churches (Žehra, Štítňik), craftsman houses as well as romantic stone bridges (Gelnica, Spišské Vlchy, Markušovce, and Rožňava).

The historic Zemplín region (<http://krajzemplin.szm.sk/indexenglish.htm>), in the eastern part of the Košice area, is known for the excellent **Tokay wine** (<http://www.slovakia.travel/entitaview.aspx?id-p=6890&l=2>). **Tokay Wine Route** (www.tvc.sk).

One of the most visited parts of Zemplín is the water reservoir of **Zemplínska Šírava** (<http://www.michalovce.sk/english.htm>).

Visitors should also take the opportunity to visit the two **wooden treasures**: The Tserkva of Archangel Michael in the village of Inovce and The Tserkva of St. Nicholas

Košice, the second largest city in Slovakia and a heart of Abov region (www.kosice.sk), is the most important banking, economic and educational center outside the Slovak capital of Bratislava. The close proximity to the Polish, Hungarian, and Ukrainian borders and the international airport in Košice facilitate the international focus of the entire region. Due to its status as an

THE BECKOV

The municipality of Beckov lies on the left bank of Váh River at an altitude of 190 m above sea level. The first written mention dates back to

preserved is the Ambros Manor House, serving as a museum – Exhibition of the History of Beckov. It is open from May to October, from Tuesdays to Sundays between 10.00 am and 5.00 pm, phone no.: 00421 32 7777217.

Foto: Jiri Foldyna

The municipality also has a Roman-Catholic Church of St. Jozef Pestún, a Franciscan monastery from 1690-1692 housing a charity house for priests; a gothic parish Church of St. King Stephan from 1424, and a toleration evangelical church from 1791-1792, reconstructed in 1943 - 1945. The other charity house is owned by the School Nurses Notre Dame.

There is a Jewish cemetery from 1739-1945 at the bottom of the castle hill.

Beckov is the birthplace of several important personalities: J. M. Hurban – politician, writer; Ján Ambro – physician, obstetrician; Ladislav Mednyánský – painter; Dionýz Štúr – geologist, and other.

Beckov does not live only with history. Today, it is a dynamically developing municipality in the field of urbanism, industry, sports and culture.

The Town of Bojnice

The town of Bojnice, called „the Pearl of Upper Nitra“, and these

days one of the important tourist centres in the Slovak Republic, has its basis in beautiful nature. Unique natural conditions enabled different forms of life to pulse here millions of years ago. Warm springs (these days a healing spa) attracted the first people to settle in the area. Archeological discoveries prove that man lived in the region more than 100 000 years ago.

and the town has a long developed tourist tradition. Anybody who has visited Bojnice, when asked about it, names three most interesting places which attract thousands of visitors from Slovakia as well as from abroad each year.

Bojnice Castle

The dominant feature of the town is a romantic castle which is situated above the town, so it can be seen even from distant places. It is one of the most beautiful and most visited monuments in Slovakia and visitors from all over the world long for seeing it.

The first written record about Bojnice is in Zobor Abbey document from the year 1113. In the year 1366 king Ludovít granted Bojnice, as the first in the region, the royal town privileges.

These days about 5 thousand people live in Bojnice

Fairy tale places in the castle revive again each year in a lot of attractive activities.

Romantic weddings in Bojnice castle are the happy beginning of new life for thousands of newlywed couples from different parts of the world, after they had said their „yes, I do“ in the castle.

Bojnice Spa

Thermal springs and beautiful nature near Bojnice castle have been in harmony for

centuries. Healing hydrogen-carbon-sulphur and calcium-magnesium hypotonic akrototerm with the temperature of 28 - 52 degrees Celsius treats mainly problems of locomotive organs and nervous system. Except of classical treatment the spa offers different relaxation and wellness programmes.

Bojnice Zoo

Bojnice zoo is the oldest zoo in Slovakia. These days there are 318 kinds of animals, 1943 specimen from different parts of the world. During 50 years of its existence it has achieved European and world first places in breeding and other areas of its activities.

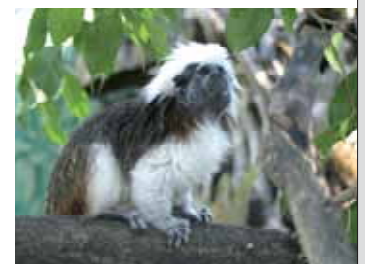

Bojnice zoo is the member of such prestigious organi-

zations as World Association of Zoo Parks and Aquariums and European Association of Zoo Parks and Aquariums. The zoo takes part in European and world environmental programmes and in its therapy centre there are handicapped animals which are, after being cured, returned to the wild.

Bojnice zoo is a modern zoo park with rich history, active present and, no doubt, interesting future.

Town of Galanta

Location:

Galanta is a district town in the Trnava country. It lies in the middle part of south-western Slovakia. The town is one of the cultural, administrative and industrial centres of the Danube Lowland regions.

General information:

Population: 15 813

Area: 33,9 km²

Density: 466 inhabitants/km²

Unemployment rate: 3,33 %

Main industrial key sectors:

Electrical engineering, engineering, logistics, financial services, polygraphy, production of plastic goods, agriculture.

Top tourist attractions:

Thermal centre Galandia with whole year operation – it's a newly open recreation centre consisting of 3 outdoor and 4 indoor pools with water attractions, roller coasters.

www.galandia.sk

Neogothic castle – this most valuable building of the whole region was built in 1633 by brothers Daniel and Pavol Esterházy in the renaissance style. It was rebuilt in the baroque style in the year 1936. It gained its present look in 1861 after a dramatic rebuilding organized by

Jozef Esterházy, who had been inspired by romantic English gothic style.

www.galanta.sk

Renaissance castle – was built by František Esterházy around the year 1600. Inside the castle, there is a museum, a ceremonial hall and exposition of the Museum of National Culture.

www.galanta.sk

Church of St. King Stephan – the church was completed and consecrated in 1805. It is a monumental two-spired classic building with baroque features.

The Neogothic manor - house

Košice: The second largest city in Slovakia

Košice belongs to the cities of rich and famous history. The first written reference about Košice dates back eight hundred years ago. Its rich history was to a great extent influenced by the fact that Košice in its past was an important crossroad of trade routes.

In 1290 the city gained various privileges and the

European cities throughout the medieval ages. In the 14th and 15th centuries Košice experienced a boom in craft and trade with metal, fur and other goods.

In 1657 the Košice University was founded which later in 1777 changed to a Royal Academy with a printing press center. In the 19th century several manufactures which

right to protect the city by fortified walls. In 1369, King Ludovicus the Great granted to Košice a coat of arms which is a modification of the royal symbol of the Anjou family. It is the oldest armorial warrant of the city in the whole Europe. In the mid 15th century the city obtained a privilege that raised its status to one of the leading cities in the Hungarian Empire.

With its economy and political influence the city belonged to the most significant

later turned to factories were established. In the second half of this century the city belonged to those that had most developed industry in Hungary. In the period between the wars the city changed to an industrial, garrison, and administrative center.

The powerful post-war development of the city was clearly activated in 1960's when a mammoth metallurgical complex of Eastern Slovakian Ironworks /nowadays US Steel Co./ was built.

It stimulated a massive migration to Košice from the whole of former Czechoslovakia.

As a result, the city expanded in the number of inhabitants as well as in its area.

Statistical information:

Population: 236 831

Average age: 36 years

Unemployment rate: 9,56 %

Districts: The city consists of 4 state districts and 22 municipalities /borougs/

The development projects:

A. Building the shopping –relax complex Aupark /Unibail Rodamco / HB Reavis Group/ - 32 000 m², 160 trade units, 1 200 parking places

B. Polyfunctional Centre Cassovar /Global Group/ - new lifestyle of modern companies connects the possibilities of work, housing and relax

C. Industrial Park IM-MORENT /Immorent Slovakia/ - the new industrial park with the area of 60 hectares – being prepared for investors in the field of logistics

D. Central Park /Letterstone Slovakia / Rabbit Engineering/ - the polyfunctional area for housing – 470 residential units with 34 000 m²

E. Railway place - /W – GO/ - reconstruction of railway station to the commercial centre

F. New City Centre – area for civic facilities - an idea of creating new city centre area approx. 140 000 m² with 50% city ownership of the property

The city will organize in 2011 the World Championship in ice hockey and is the European Capitol of Culture for the year 2013.

In this area you can find its famous roads called Gothic road, Iron road and Road of Maria Seci. The whole area is very rich in its historical monuments and cultural heritage.

The first written record about Revuca is dated back to year 1357. Iron industry was very important for this area for more than 500 years. In 19th century Revuca became the centre of Slovak national life and education. The first Slovak gymnasium

famous for its natural beauties such as National park of Muranska planina, Stolica mountain and Revuca s highlands. There are very good conditions for touring, tourism and for the stay in nature through

the whole year. This town with its surroundings has many huts and tourist cabins in traditional and natural hillside settlements. This region has more than 250 km of mar-

THE TOWN OF SPIŠSKÁ NOVÁ VES

Gateway to the Slovak Paradise

Slovak Republic, Europe
N 48° 56' 39,01"
E 20° 34' 0,32"

Spišská Nová Ves with its more than 740-year long history is an ideal starting point for the lovers of tourism along harsh but picturesque gorges of the Slovak Paradise National Park, for the admirers of monuments included in the World Heritage List of the UNESCO and for those interested in obscure but even more precious Gothic Route monuments.

The town features the

216 km of tourist paths and 65 km of bike tracks.

The combination of nature, history and active relaxation in the middle of Spiš are complemented by other available natural beauties, among which belong the High Tatras which are just 30 km away, thermal swimming pools in nearby Vrbov, the nearby Pieniny National Park, the caves of the Slovenský Kras or the quickly reachable metropolises of Prešov and Košice.

In the future a large ski resort will be built up close to the town, which will enable an even better utilisation of

Spišská Nová Ves as a place for year-long relaxation and entertainment.

An increasing interest in Spišská Nová Ves is reflected every year in the growing number of its visitors, services concentrated not only in its centre and also in increased business activity.

Spišská Nová Ves - this is the gateway to the Slovak Paradise.

The town was founded as a Slovak settlement by the Bebek family in the 13th century. The archive documents identify Dobšiná as the first steel town of Hungary, reaching the top of prosperity in ore-mining and iron-working in the 17th and 18th centuries. As early as in 1680, the first blast furnace in Slovakia was constructed in Dobšiná. The copper from Dobšiná was exported to the Netherlands. The town also had a Latin seminary, among

the 19th century.

The Roman-Catholic church was built in 1792. Inside the church there is a marble Statute of the Crucified by the notable sculptor J. Fadrusz. The building of the town hall –current seat of the Town Office, was constructed in 1870.

There is a courtyard in the middle of the building with a built-in staircase covered with a mirror arch with glass. In the town outskirts, there is a build-up area with remains of old metal-working workshops, and of a mill and a sawmill.

The world-known Dobšiná Ice Cave is situated close to the town. The Slovak Paradise national park and the surrounding nature provide Dobšiná with excellent opportunities to become a popular tourist and recreation centre.

As for important events, the town organises the traditional Dobšiná Whitsuntide Feast with a fair every year. The International Uphill Car Race

to the Dobšiná Hill also has a long history.

Dobšiná, the town of old mining traditions, opens its hospitable arms to all its visitors.

The Town of Hurbanovo

The town of Hurbanovo is located in the southern part of western Slovakia in the Danube lowlands, at the junction of the rivers Žitava and

Nitra. The earliest reference to this town as "possesio Gyalla" is from 1357.

Hurbanovo lies at 115 m above the sea-level, at the warmest point of the Danube lowlands, which together with the local climate and favourable soil conditions predetermine the agricultural character of this area.

The town has seven town districts with a total of 8,058 inhabitants: Hurbanovo, Bohatá, Zelený Háj, Nová Trstená, Konkoľ, Holanovo, Vék, located at the cadastral territories of Hurbanovo and Bohatá.

The town has various historic monuments, such as the catholic church of St. Ladislav, a church of the Reformed Church, a classicist curia, a hunter manor-house, the catholic church of St. Anna etc. The protected natural monuments include the historic park in the area of the observatory and planetarium, and two historic parks in Bohatá.

We have a lot to offer in the field of education. The town has three elementary schools, one elementary art school, second-

ary public engineering school, and a secondary agricultural school.

The Municipal Cultural Centre organises various events and projects movies. Children can spend their free time in the Free Time Centre where they can dedicate to their hobbies in different groups under supervision of professionals.

Hurbanovo offers opportunities for practicing sports in various clubs of school establishments, and in tennis and football clubs, as well. There is also a football stadium and an ice-hockey ground used for skating and playing hockey in the winter and as tennis courts in the summer.

The town is successfully represented by important institu-

tions, such as the Slovak Central Observatory and the Hydro-meteorological Institute, and

by the companies HEINEKEN Slovensko a. s., NURITECH Slovensko s.r.o., Namex s.r.o., Terbo s.r.o., Joalko, Jatka Hurbanovo s.r.o. and DS Smith Slovakia s.r.o..

Michalovce

Michalovce is the economic, administrative and cultural centre of lower Zemplín. The strategic position

of the town led to the establishment of traditional and classical crafts, trade and, later, industries such as clothing, construction, ceramics, engineering, electronics and food production.

At present there is a wide range of institutions and specialized organizations in Michalovce. Cultural life is built around the regional and town cultural

centers, the Zemlín Museum, the observatory, the library and the local branch of the Matica Slovenská organization. The new, reconstructed pedestrian area in the town centre with its singing fountain attraction has become the natural focal point of the town. Regular cultural and social events make a pleasant charge from routine.

famous for having the largest annual number of sunny and tropical days. Michalovce and Zemplínska Šírava are becoming more popular and attract foreign tourists from neighbouring countries.

DETVA

DETVA is situated in the heart of Slovakia, about 220 km from Slovak capital Bratislava.

It is the centre of Podpolanie region, one of the most original Slovak regions. From 1996 Detva is the centre of the district. Its area is 6,809 hectares and it has about 15,000 inhabitants.

Geographical location of Detva in the centre of Slovakia enables good traffic connection with the neighbouring regions as about roads and railways. The road I/50 (Bratislava – Zvolen - Lučenec - Košice) is the traffic axis of the area. It will be soon improved by building the R2 highway. Detva is connected with the railway line Zvolen – Lenártovce – Košice, which runs through southern part of the town. The nearest cargo railway stations are in neighbouring villages Víglaš and Kriváň. Airport in Sliač is only 27 km from Detva.

Good technical and civic infrastructure is available in the town. In the Strategy of Slovak Republic Improvement Detva is one of innovative progress poles.

Business and employment support is one of the priorities so

that the new business zones are being created.

With the EU support of its structural funds Detva town realized reconstruction of some producing parts in PPS factory.

Detva owns also allotments of 11 ha area, which is considered to be the future industrial park Detva – Trstená.

In southern part of Detva there are some areas and building sites of stores, services and production.

Potential of Detva and its surrounding is not used properly. There is a good opportunity not only for visit and getting known of this region but also for investment into business and living in this environmentally pure, clean and beautiful town in the heart of Slovakia.

City of Senica

Senica, the district town with over 20 000 inhabitants, is the biggest administrative, economic and cultural centre of the northern part of the Záhorie. It has advantageous location nearby the borders with Czech Republic and Austria and its further development is connected with the cross border cooperation. Senica is the important business-industry centre of Záhorie.

The oldest piece of the 750 years built heritage is St. Anne's Chapel dating back to the 15th century. Nevertheless, Senica is the modern town with the average age of its inhabitants is 35 years. The near recreation area at Kunov Reservoir can be easily reached by cycle-way. In the town, there are also football and winter sports stadiums, a sports hall, indoor and outdoor swimming pools, sauna and fitness centre, handball, volleyball and tennis courts.

Small handicrafts and agriculture town was almost completely rebuilt in the 1960's. Senica has welcomed the third millennium with unprecedented development of the industrial,

residential and business zones, building-up of the relaxation and sport areas. The industrial zone is built up on the area of 200 ha and has already foreign investors there. The partnership towns of Senica are Trutnov and Velke Pavlovice from Czech Republic, Pultusk from Poland, Bac from Serbia and Herzogenbuchsee from Switzerland.

Sered'

Sered' lies on the right bank of the river Váh in the Danubian Plain. Originally it was a settlement

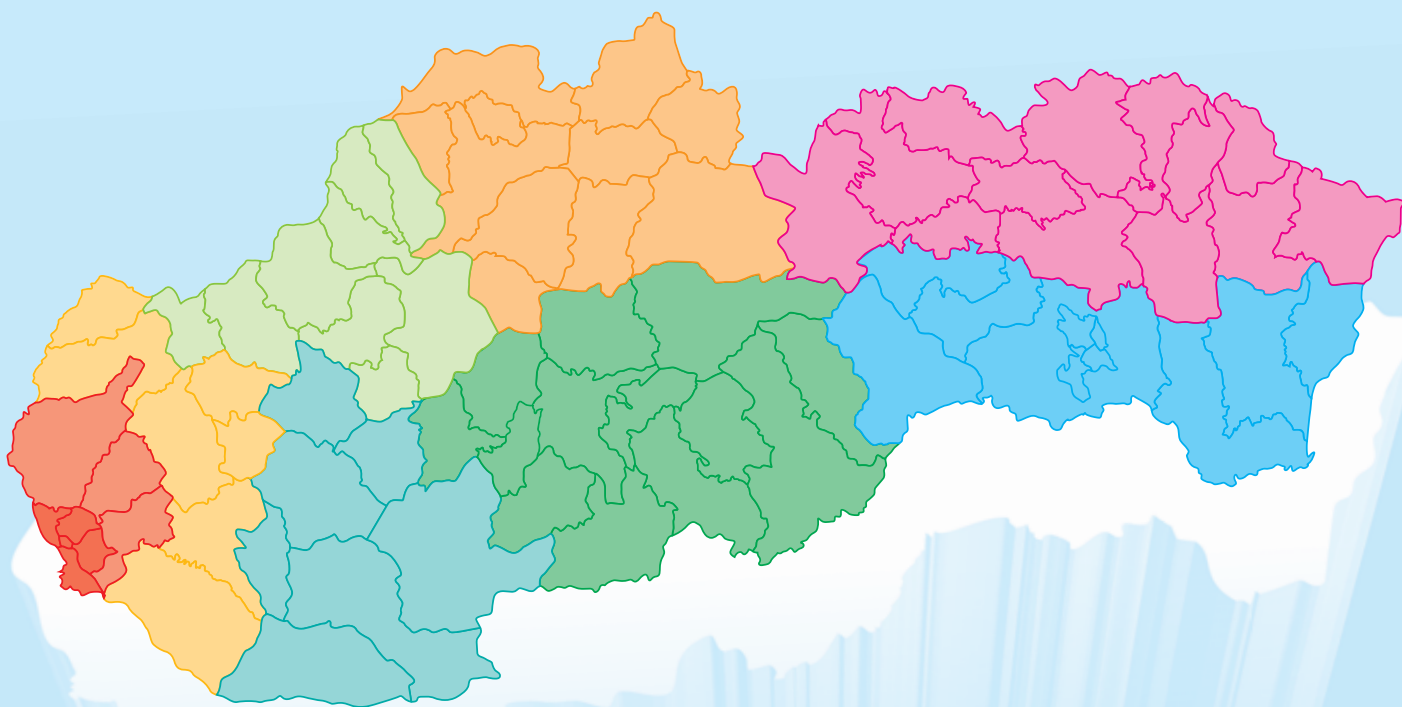

of the keepers of Šintava Castle, which was mentioned by the Chronicle of Anonymus already in 896. The castle was rebuilt in Classicist style. The municipal coat-of-arms shows the image of the castle. Sered' was first time mentioned in 1313. The town lies on the crossroads of two trade routes - the dry so called Czech Road leading from Budín to Praha, and the Water Road along the river Váh. Sered' is a famous archaeological site. Finds from the nearby Mačianske Hills and the courtyard of the old Šintava Castle (collections from the Heritage Museum in Galanta) are displayed in the Municipal Museum located in the former Fándly vicarage. The museum is open from Tuesday to Saturday from 10:00 do 18:00. In the museum forecourt, the foundations of a 14th-century church are exposed. The new

church which was built in 1781 contains two valuable Renaissance tombs from the old church. At the church stand the 18th-century Trinity and Marian columns. The town is dominated by the Town hall (1910) which together with the Fándly vicarage form the last preserved urban Art Nouveau complex.

The river Váh and neighbouring waters offer rich opportunities for recreation and water sports; in the surroundings they hold several fishing contests per year. The town revived the old tradition of the annual fair, and on the day of St. John the Baptist they open the Sered' Feast.

Air transport

There are 6 international airports in Slovakia that can be used for both passenger and cargo flights:

M.R.Štefánik airport Bratislava,
Airport Košice,
Airport Poprad-Tatry,
Airport Sliač,
Airport Piešťany
and **Airport Žilina.**

As the potential of Slovak airports is not yet fully exploited, regular and also irregular connection of Slovakia to Europe and the rest of the world is secured through Vienna Schwechat airport. Schwechat airport is the main international airport of Austria and is only 50 km distant from Bratislava. There is also regular train and bus connection between Bratislava and Schwechat. Another large international airport accessible is Budapest airport, main airport of Hungary, distant 250 km from Bratislava. It is also possible to use airport Ruzyne in Prague that has regular flights to M. R. Štefánik airport in Bratislava.

RAILWAY BORDER CROSSINGS

Ladies and Gentlemen,

Our Slovak Agricultural and Food Chamber – like any other non-governmental organization – can not directly interfere into the commercial policy of our members and would not do that even in the future. The first of our objectives is to participate on a creation and realization of the economic and agrarian policies bringing the development and profit not just to the entrepreneurs in agriculture and food sector, but ultimately to the all people of the Slovak Republic.

Domestic agrisector will have to react to consequences of climate changes in the near future, what we consider as one of the determining task, especially in the plant production. The animal production after the prior tremors will have to be stabilized and step by step absorb new impulses for the further development. Some changes will be necessary to make also in the organization of the agricultural primary production as such, mainly in terms of her real concentration.

An increasing of its social prestige on the national level and balancing of the entrepreneurial conditions within the Common Agricultural Policy of the European Union could help, in our opinion, to the improvement of the position of the agricultural sector within the domestic society. The agriculture henceforth remains extremely important economical activity in rural areas of Slovakia and besides production contributions brings also fairly big nonproductive benefits related primarily to the maintenance of the cultural character of the country, creation and protection of the environment as well as many others. So far there is no expert quantification and no public presentation of the latest, what we also consider as one of the crucial tasks which agri-food complex will have to deal with.

We, in the Slovak Agriculture and Food Chamber, are convinced that our sector is able to respond to the globalization of the world market adequately. However, it won't be an easy process. The farmers are already experienced with the strength of their business partners whose concentration is constantly growing. We can watch it in the food processing industries and even more in the field of selling the final food products where transnational market chains has gained insofar dominant position on our domestic market that they can unilaterally enforce their will to their suppliers. We have tried to solve this problem by the legislative way and we believe that the new Act on inadequate conditions in commercial relations, that has been already adopted by the Parliament and will come into force from year 2009, would help to eliminate at least the worst forms of abusing the economical power of the great commercial systems in our country.

As concerns the agricultural primary production, its concentration is recently in process however it does not seem so. The agricultural entrepreneurs are trying to stabilize their position on the market but they would be more successful and faster if they do not suffer from a weaker capital investment into their facilities which is related to the historic evolution of our agrarian policy. This policy has been in the period of the socio-economical transformation of Slovakia – even of former Czechoslovakia – quite often unconceptually changed according to the different views of the political subjects forming the particular governments and coalitions.

We highly value the actual establishing of the Producer Organizations which may improve their negotiation position and selling price of certain agricultural products on the market.

**Slovak Agricultural
and Food Chamber**

Záhradnícka, 21

fax: +421-2-5556 4800
e-mail: sppk@sppk.sk
<http://www.sppk.sk>

The advantage of this form of the producers' concentration is that each member company shifts only an agreed part of the competencies to the Producer Organization and it can remain "de facto" as well as "de jure" an independent subject with its own business and management strategy. In the classic company merges this element fades away because the decision making is shifted to the hands of the new owners, i.e. leaders of the concern or holding companies.

Slovak farmers, like other farmers in the new EU member countries, except Slovenian, have to deal with the direct payments that are progressively equalizing to the "EU-15" countries. But we experience this handicap even more because our farmers in the pre-accession period and also in the first years after the accession to the European Union had to combat with the insufficient capital and financial background, which we still did not overcome fully. The pre-accession negotiations have had not just economic but also political character which seemed to be more crucial to the Slovak government. Recently some of the agricultural ministers coming from the new EU member states (i.e. "EU-10") had try to speed up the equalization of the direct payments within the whole European Union countries but their initiative got drowned on the strong refusing position of the European Commission. Moreover, Slovak farmers were disadvantaged by the non-equal business conditions even within the "Visegrad four" countries coalition (i.e. Poland, Hungary, Czech Republic and Slovakia) because the national top-ups (up to 30%) were different in the surrounding countries and the Slovak government did a little in favor of the agricultural producers in the first three years after the accession.

This has been changed three years ago when the agrarian and rural policies had finally became one of the priorities of the state economic policy. However the previous long-term period of the agrarian sector underestimation slowed down the level of investing, caused losses of qualified labour powers and dramatically reduced an interest of the young people to work in agriculture. These effects are visible also in other EU member states but their influence is even deeper and spread to all regions of Slovakia.

Instead of these facts we have to fight on. The rich agrarian traditions as well as the new challenges in the terms of the food security and safety are pushing us to search for the best ways how to use the production potential of Slovakia and contribute to its progressive development. Those are the reasons why we are still in enforce the agrarian policy with its all positive impacts to our beautiful country.

BELAR a.s.

SLOVAKIA

PARTNERSHIP - QUALITY

REGISTERED OFFICE:

Nová Osada 22
929 31 Dunajská Streda
tel.: +421-31-590 40 42
fax.: +421-31-590 40 43
internet: www.belar.sk

BELAR a.s. has been present at the Slovak market for more than ten years. The requirements of enhanced business efficiency and growing competition resulted in substantial changes by which the new company BELAR a.s. was established. From the legal point of view, it was a merger of three companies. The new company started focusing on national and international levels defining its specific position at the market. BELAR a.s. became a modern trading company concentrated on three major business scopes covered by our divisions. Those are the trade, manufacture of fodder mixtures, and protection and storage of plant commodities.

The manufacture of fodder mixtures is a traditional part of business of the BELAR a.s. At present, thanks to its modernisation, it reaches the technological comfort comparable to our foreign competition. The focus on quality was confirmed by the HACCP Certificate granted to the company. The company is passing from the wide-spectrum manufacture to specialisation following a well-balanced ratio of poultry, pig and beef fodder in its two manufacturing plants in Dunajská Streda and Velké Ripňany.

The company also manufactures complementary fodder in its newly-built plant in Lehnice, representing a unique

offer of extruded products to be used by breeders and also used as a part of our own fodder mixtures.

The company assets also cover the purchase warehouses located in Dunajská streda, Dolné Štály and Lehnice, involving the total capacity of up to 100 thousand tons. We attempt to reach a high technological level, and our quality management is supported by the ISO and GMP+ Certificates. Our central laboratory in Dunajská Streda provides services, too, being accredited and making professional analyses of agricultural commodities.

BELAR a.s. is one of the major Slovak companies in the field of the manufacture of fodder mixtures and trade of plant commodities. Our company became a part of the Agrofert Group. Our main objective is to continue enhancing our market position in the field of plant commodities and fodder mixtures not only in Slovakia, but also abroad.

BELAR a.s.

Slovak Agricultural and Food Chamber (SPPK) represents non-governmental, autonomous and statutory undertaker which was established in line with the Law No.30/1992 Coll. as amended. The basic role of the Chamber is to push forward the justified common interests of its members, mainly in the process of the agricultural and social policy setting. Chamber also takes part in the creation of the state policy concerning the support and protection of its member entrepreneurs to ensure the further development of agricultural production and food processing in the Slovak Republic.

Membership

The members of SPPK are natural and legal persons providing the business activities in agriculture, food industry and in biological, technical and commercial services for agriculture and food processing industry, as well as the other non-governmental organisations operating in the agri-business. The membership in the Chamber is voluntary since January 2005, according to the changes made to the Law. By September 30st 2005t, SPPK registers 2 108 member organisations, of which 1 803 members come from the agricultural primary production, 155 members come from the food processing industry, 111 of the members are providers of the services for agriculture and there are also 39 other organisations, mostly coming from the field of science, research, schools etc.

Internal organization

Central office in Bratislava with 15 employees and the net of 41 regional agricultural and food chambers (RPPK) operating in Slovakia. The "regional" chamber can be established also on the other than just territorial basis. This change in the wording as well as the principle of the voluntary membership was set out in the Law No.546/2004 Coll. which amended the original Law No.30/1992 Coll. on the Slovak Agricultural and Food Chamber. There are also four subjects with the statute of RPPK in accordance to the Statute of SPPK and the Law above. The activities of the Chamber are supervised by the official bodies – the General Assembly, the General Management, the President and the Supervisory board. General Assembly composed of the delegates voted by representatives of the member subjects. The General Assembly approves the Statute of the Chamber, its Electoral system, the Rule of procedure and also votes on the President, Vice-presidents, the members of the General Management and the Supervisory board. The General Management is the executive body which administrates the proceeding of the Chamber. The President is

on the head of the Chamber and the General Management, he monitors the functioning of the Chamber central office and fulfils his duties set in Status, orders of the General Assembly or the Management. The Supervisory board represents the highest body controlling all the activities of the Chamber.

Internal Communication

The Chamber is using the wide-spread net of its regional chambers in the whole territory of Slovakia. The central office communicates with the regional chambers using the internet and emails, but also regular meetings to discuss the actual issues. The Slovak Agricultural and Food Chamber is the only autonomous organisation in the Slovak Republic combining the entrepreneurs operating in agricultural primary production, food processing industry and services for agriculture. SPPK is communicating also to its member associations as well as to the other agricultural autonomous organisations. All the members of SPPK have direct access to the office in which they are registered, but also to the central office in Bratislava.

Activities

The Chamber's activities are concerned on:

- Legislative – legal sector
- Providing of business information service
- Guidance and education
- Co – operation with the international organizations

Membership in international organizations

1. International European farmers organization COPA/COGECA
2. Confederation of the food and drink industries CIAA

Co-operation with national and international partners

The Chamber is co-operating and communicating also with the state bodies accordingly to the conditions set out in the Law and in the Agreement on a Co-operation between the Council of the Agricultural Statutory Undertakers and the Ministry of Agriculture of the Slovak Republic to search for the solutions of the problems in agriculture and food sector. SPPK pays extra attention to development of the international contacts and took the initiative of the periodical meetings of the representatives of the agricultural chambers from the "Visegrad four" countries (Slovakia, Czech Republic, Hungary and Poland). The Chamber is communicating also to other agricultural chambers within the European Union.

Member associations of food processing

SPPK organizes 13 associations of the food processing industry – see below:

Member of ARIES Group:

ARIES INFORMATIQUE INDUSTRIELLE (France – Villejuif)

GURET Metallurgie (France – Lyon)

N3D (France – Villejuif)

Main activities:

Sheet Metal and Profile Working:

- CNC Laser: 4000 W and 3000 W, CNC plasma (30 mm) and flame (300 mm) cutting
- CNC Punching: 200 kN and 500 kN
- CNC Bending: 320T, 220T, 135T, 80T, Length up to 4 m
- CNC Turning (4 axes, 1000 × 610 × 610 mm movement, 10.000 RPM)
- CNC Milling (Lathe, D200/Length 300 mm, Roundbar D60)
- Roll-bending: 1500/10 mm
- Welding: TIG, MIG (steel, inox, aluminium) – 50 welders
- Drilling: up to 300 mm
- 3D Control
- Assembly of Mechanical and Electronical Equipments
- Cabling and Production of Control Boards
- Powder and liquid Painting and Surface Treatment

ISO 9001:2001

ISO 14001: 2005

Our main customers are manufacturers of:

Metal Forming and Metal Working Machines:

- Equipments of CNC bending, folding and punching machines,
- Command numerical control

Garage Equipments:

- 2 and 4 post lifts, scissors lifts

Industrial Electronics:

- Electric wiring and electronic boards

Environmental Equipments:

- Vertical press

Handling:

- Forks for carriage lifts

Furniture and Food Industry:

- Promotion and informatical tables
- Benches, cooling boxes, office equipments

HORNONITRIANSKE BANE PRIEVIDZA, a.s.

Hornonitrianske Bane Prievidza, a.s., is the largest company in the Slovak Republic dedicated to the extraction of brown (lignite) coal, the sole primary domestic energy source. The Company occupies a significant position within its industry and in terms of the nation's, county's and region's economy. It holds top place among mining companies in Slovakia. Brown coal is mined underground at three locations: Cigeľ; Handlová and Nováky. Annual production amounts to 2.2 million metric tons. The Company has two branches - Banská mechanizácia a elektrifikácia (Mine Mechanization and Electrification) in Nováky and Hlavná banská záchraná stanica (Main Mine Rescue Station) in Prievidza, both firms covering specific activities.

The Company's machines are managed by **Banská mechanizácia a elektrifikácia Nováky**. The branch's main job is to produce and repair technical equipment for the mines. The branch has established itself over the long term in mining technology, both inside and outside the Slovak Republic, and won recognition in the Czech and Polish markets. The branch's most significant commercial engagements include the production of 44 pieces of BMV-1MiT reinforcement for a Turkish mining company. HBP has thoroughly reviewed the branch's manufacturing and technical potential.

Hlavná banská záchraná stanica Prievidza performs rescue service in mines and manages the branch's mine rescue unit, covering rescue activities that operate throughout all of Slovakia. The branch's staff works to save people's lives and property in industrial accidents, negotiating themselves through them and providing first aid.

The company has been expanding in the area of abroad mining activities, road transportation and in providing accommodation and meals, rest and recreational services at its own recreational facilities: the Hotel Repiská in Demänovská dolina and the Hotel Barbora in Vyšná Boci as well as at the Púšť recreation center in Prievidza and the Horec Pension in the Remäta recreational area, while also orienting itself toward new projects that are determining the Company's further direction. The chief objective is to maintain the position of Hornonitrianske bane Prievidza as a solid and solvent business partner.

**HORNONITRIANSKE BANE
PRIEVIDZA, a.s.**

**MicroStep
Group®**

- Supplier of:**
- **CNC cutting machines for cutting with laser, plasma, waterjet, oxyfuel and 3D mill**
 - **advanced control systems for machine tools**
 - **CAM software with custom modules**

MicroStep, spol. s r.o., Tomášikova 28, 821 01 Bratislava
tel: +421-2-4341 1169, fax: +421-2-4333 9987

e-mail: marketing@microstep.sk
www.microstep-group.com

The company **MicroStep, s.r.o.** was established in 1991 by members of the *Department of Control and Automation, Faculty of Electrical Engineering and Information Technology, Slovak University of Technology* in Bratislava. It is the mother company of MicroStep Group® – a group of companies focused on development, production and sales of CNC cutting machines and supply of control systems and software products to power industry, rubber industry, automobile industry and mechanical engineering. MicroStep Group® employs over 500 people and achieved a consolidated turnover of over 30 million Euro in 2008.

In the area of mechanical engineering, MicroStep, s.r.o. is an OEM of machines for cutting of materials based on energy-beam technologies: laser, plasma, oxyfuel, waterjet and high speed spindles. Through a network of 4 daughter companies and 35 authorized representatives the company delivers CNC cutting machines to 50 countries worldwide, whereby over 90% of production is for export outside of Slovakia.

MicroStep CNC cutting machines are equipped with technological equipment of leading world manufacturers – Hypertherm and Kjellberg plasma sources, Rofin and PRC laser sources, KMT and Böhler waterjet systems, Donaldson, Kemper and TEKA filter units etc. All of MicroStep machines have possibility of custom configuration – customer can choose the size of working area, number and type of cutting heads, type of plasma or laser source, filter unit, cutting table... As a manufacturer of not only

machine mechanics, but also of control system and CAM software is MicroStep able to deliver special solutions and customer specific applications with combinations of several technologies on single machine. Most of standard sheet metal cutting facilities can be enhanced by pipe and profile cutting units in a shaft along the cutting table and by additional technological heads which allow e.g. bevel cutting up to 50° with plasma, waterjet and oxyfuel, drilling and tapping (with automatic tool exchange), marking of materials by ink, zinc powder, plasma arc or punch, automatic plate alignment by laser sensor with plate size detection feature or scanning of shape of template with CCD camera. Advanced control system with touch-screen user interface allows to prepare cutting programs simultaneously with cutting process, manage cutting plan in zones, remotely monitor and manage machine through web-based intranet applications, integrate machine into PPS and database systems and to provide remote diagnostics and maintenance via Internet.

FINALCAST®

Aluminium Castings

Viac ako 40 rokov znalostí a skúseností

- výroba hliníkových odliatkov
- gravitačné hliníkové odliatky
- nízkotlakové hliníkové odliatky

More than 40 years of knowledge and experience

- production of aluminium castings
- gravity die castings
- low pressure die castings

FINALCAST®

Aluminium Castings

History of aluminium castings production dates back to 5 April 1967, when the first casting was produced at ZSNP, a.s. – division Finalcast.

Nowadays, the following two casting technologies are in operation at Finalcast: the gravity die casting and the low pressure die casting.

GRAVITY DIE CASTING

The main advantage of gravity die casting technology is its flexibility enabling the production of aluminium castings of great complexity. This feature is particularly valuable and advantageous when castings of specific shape and dimensions are desired. Inner casting shaping is carried out using sand cores: CT, CB and CRONING production methods are used for sand cores production.

LOW PRESSURE DIE CASTING

Low pressure die casting technology is suitable for the production of large-sized castings, meeting both

demanding requirements and specifications concerning dimensions and weight, as well as oil- and water-proof characteristics. Using the technology aluminium alloys castings up to 1.2 m in diameter and up to 35 kg in weight can be produced.

FINISHING OPERATIONS

Better mechanical, structural and surface-quality properties are ensured by the following finishing, or "after-production" operations:

- shot blasting with CrNi40, Cr40, GRANOX40,
- tumbling - vibratory deburring/cleaning of castings,
- impregnation,
- heat treatment,
- milling and turning using CNC equipment,
- castings degreasing.

HEAT TREATMENT

Finalcast offers apart from production of aluminium castings also heat treatment services for aluminium alloys castings with annual capacity 3 000 – 5000 MT.

The heat treatment process is certified according to ISO 9001:2000, OHSAS 18001:1999 and ISO 14001:1998.

Contacts:

BIONT, a.s., Karloveská 63, 842 29 Bratislava, SLOVAKIA
tel.: +421-2-2067 0749, fax: +421-2-2067 0748
e-mail: biont@biont.sk, web: www.biont.sk

The state owned Joint Stock company BIONT, a.s. has been established since January 21st 2005, according to the Slovak Government's resolutions Nr.1003/2004 and Nr.1195/2004 from October 2004 and November 2004 respectively.

BIONT was grounded with the aim to establish a multi-purpose centre and production facility ensuring:

- production of radionuclides and radiopharmaceuticals,
- radiopharmaceuticals application in nuclear medicine diagnostics,
- the basic and applied research in radiochemistry, physics, biology and medicine.

During the years 1994-2004 the International Atomic Energy Agency provided, within the frame of technical co-operation program SLR/2/002, and except the basic laboratory and production equipment and expertise, the most valuable help in the implantation of necessary knowledge. There was lack of experience in the field of radionuclide and radiopharmaceuticals production, and Slovak scientists were getting necessary know-how and experience of best practice at European cyclotron facilities (Berlin, Bologna, Copenhagen, Darmstadt, Debrecen, Dresden, Geneva, Groningen, Helsinki, Jülich, Jyväskylä, Karlsruhe, Louvain-la-Neuve, Manchester, Prague, Turku and Uppsala).

Thanks to these preparations, the period from the technical accomplishing of technology till its performance, operational qualification and licensing was squeezed to less than one year.

At present, in the BIONT's main building the essential company laboratories and departments are located, as the

- department of radiopharmaceuticals production and quality control,
- nuclear medicine PET centre,
- medical radionuclides and radiopharmaceuticals research and development unit,
- department of nanotechnologies.

The technology for **radionuclides production** involves:

- [¹⁸F]FDG (routine production by TRACERlab MX_{FDG} module, 50-80 GBq per run),
- [¹⁸F]DOPA – pilot synthesis,
- [¹¹C]CH₃ / [¹¹C]raclopride / [¹¹C]methionine – pilot synthesis, and also targetry for [¹⁵O]O₂ and [¹³N]NH₃, production is available. A solid target COSTIS and a TERIMO separation module are qualified for production of the positron emitting radionuclides complementary to SPECT radionuclides, e.g. ¹²⁴I - a new IAEA TC project SLR/4/010 launched in 2005.

The production of [¹⁸F]FDG radiopharmaceutical for cancer diagnostics was launched commercially since February 2006. To the end of August 2007, production units ensured 800 commercial deliveries of [¹⁸F]FDG at average activity 4.3 GBq at customer reference time.

All production laboratories were built to fulfil the current European Union Good Manufacturing Practice (GMP) guidelines for human drug production, regulations for radiation safety, health care, and environmental protection:

- Slovak Republic Radiation Protection Act 470/2000.
- Slovak Republic Health Care Acts 272/1994 and 576/2004.
- Slovak Republic Drug Control Acts 140/1998 and 663/2004.
- EC Directives 99/11, 99/12, 2001/83, 2003/94, and 2004/27.
- ICH Q7A Guidance for Good Manufacturing Practice.
- GAMP4 Guide for Validation of Automated Systems, ISPE 2000.

As an umbrella for all these regulations, a quality management system according to ISO 9001:2000 has been created since. In August 2007, the Lloyd's Register Quality Assurance (Lloyd's Register EMEA, Prague Office) approved it as applicable to the design, development and production of medical radionuclides and radiopharmaceuticals.

Nuclear medicine department – PET Centre is equipped with a PET/CT camera "Discovery LS", and a "Millennium Hawk Eye" SPECT/CT coincidence camera. The company owns also the PET tomograph operated at the St. Elisabeth Institute of Oncology Ltd. (Bratislava) and another SPECT/CT coincidence camera the Central Military Hospital (Ružomberok, North Slovakia) respectively. For the pre-clinical studies a laboratory equipped with a microPET for small laboratory animals has been created in cooperation with the Institute of Experimental Endocrinology of the Slovak Academy of Sciences (Bratislava).

Department of nanotechnologies comprises several laboratories equipped as follows:

- Electron cyclotron resonance (ECR) heavy ion source DECRISS-2M with ion beam transport system and scanning to 120x120 mm² area
- UHV target chamber, with a rotary sample holder and variable sample temperature from -196°C to +1100°C, in-situ sputter-cleaning of the sample surface, and in-situ thin films deposition
- Spectrometer of Auger electrons with 20 μm electron beam. The absolute sensitivity 10⁻¹⁴ g, relative sensitivity 10⁻³ %.
- Scanning probe microscope (SPM) Solver P47 for high-resolution surface studies, modes: scanning tunnelling microscopy, scanning tunnelling spectroscopy, atomic force microscopy, phase imaging, magnetic force microscopy, electrostatic force microscopy, scanning capacitance microscopy, and nano-lithography).
- Mask Lifetime Test-bench (MLT) adapted for development of ion sources and testing of the ion beam induced erosion. It comprises:
 - Ion injector system with exchangeable ion sources (duoplasmatron, RF, PIG, multicusp)
 - Target chamber with 4 motion precise goniometer and beam characterization system

The company **research projects and cooperation** with other institutions include:

- Production of positron emitting radionuclides complementary to SPECT radionuclides, IAEA - SR TC project SLR/4/010.
- Charged Particles Nanotech (CHARPAN) – EU 6FW IP.
- Multifunctional Oxide Layers - Slovak Grant Agency for R&D.
- Development of new superhard materials based on carbon and nitride layers with emphasis on diamond and cubic boron-nitride - Slovak Grant Agency for R&D.
- Nanostructures for cryoelectronics, sensors and metrology - Ministry of Education Applied Research project.

www.kovotvar.eu

KOVOTVAR the Cooperative society was established in 1953. Over the years it has reached major success in the field of production of metal products, especially processing of steel sheets, hot dip galvanizing and machining.

- galvanized and powder coated **metal products** for garden, household and decoration: watering cans, buckets, vases, planters, containers, flowerpots, wire products, etc,
- galvanized **anchor pins** suitable for fence buildings and other simple constructions,
- galvanized **catch pits** for underground constructions,
- **galvanized products for the sow breeders (pen equipment)** in agriculture,
- **hot dip galvanizing, powder coating, welding, pressing, cutting of sheet, bending, CNC machining** and other services in machining.

KOVOTVAR – the Producer’s Cooperative

KOVOTVAR – the Producer’s Cooperative has been working for a half of century (the company was established in 1953). Over the years it has reached major success in the field of production of metal products and related cooperation. Today, KOVOTVAR is a producer of the goods that are successfully sold on the domestic as well as on the foreign markets. Its production covers 20 % of the domestic consumption and nearly 80% of the annual production is exported almost all over the world: EU countries, Norway, Switzerland, the Czech Republic, Poland, the USA, Canada and Japan.

We have two works, about 300 employees. Annual turnover of KOVOTVAR is 14,5 mil. €. The production program consists of the following lines:

- galvanized catch pits complying with the DIN Norms
- galvanized anchor pins suitable for fence building and other simple constructions
- wide range of galvanized and coloured metal goods for garden, household and decoration (e.g. buckets, watering cans, pots, vases, planters, containers in many sizes and shades etc.)
- galvanized products for the sow breeders (pen equipment)

All our products are made of solid steel, tubes or wire and then hot galvanized (hot-dipped) and/or powder coated. Our consumption of steel sheet is ca. 4000 t per year.

Furthermore, we offer production cooperation in areas:

- 1) Pressing – eccentric presses 25t, 40t, 63t, 100t and 160t
crank press 250t
hydraulic presses 100t, 160t and 250t
press brake 15t and 50t and new CNC press-brake (120 t)
- 2) Material indexing: table shears up to thickness max. 6mm
- 3) Welding: spot welders and seam welders up to 4mm + 2 welding robots ROMAT 310 and ROMAT 76 (Cloos)

- 4) Bending: automatic bending machines for tubes, INTELLIBEND 60 CNC – Hydraulic bending machine of tubes
- 5) CNC press-brake
- 6) CNC cutting press TRAUMATIC 2000R (Trumpf) with the layout 1270 x 1270 mm
- 7) Drilling, turning, etc.

As a surface finish we offer:

- 1) Hot galvanizing in the furnace of size 1,2x1,2x7m where the parts of weight up to max. 32t can be galvanized. Our service complies with all criterions set by the standard EN ISO 1461. Our annual consumption of Zinc is approx. 1600t.
- 2) Powder coating – 3 spraying cabins with dimensions 119x170x86 cm. The coatings are dermatologically tested and clean.

We are holder of certificate for norm ISO 9001:2000 from 28. Jun 2006.

For further information about our company or potential cooperation please consult our web-site (www.kovotvar.eu) or contact us directly:

ZSSK CARGO

We offer more than a service, we offer future.

Have you decided to transport consignments by railways? Do you hesitate which partner to choose? We present you advantages, which you get by co-operation with us.

Wide range of transport services

For more than 160 years we have been meeting our customers' transport requirements and following their needs. During this time we have gathered a lot of experience and knowledge, which are irreplaceable. Due to that, nowadays you can be offered the widest palette of railway transport services.

High-quality ancillary and subsidiary services

Our primary target is satisfaction of our customers with offered services and products. That is the reason why we keep on working on extending the range and increasing the quality of ancillary services which are directly related to execution of conventional and intermodal traffic and improving their quality. We also provide information service, security advisor services and other carriage and acquisition services. Providing certified services of maintenance and repairs of tractive stock, passenger coaches and freight rolling stock for our customers and our own fleet represent another important support activity.

Comprehensive transport

If you need to transport any volume of goods of any commodity group by railway, we have means to satisfy your needs in respect of safety. We provide transport not only as block trains, but also as single wagon shipments. Thereunto we are the only company providing a certified product of logistic trains. All block trains being part of intermodal transport system are certified.

Network of business managers and business representatives covering all regions

The quality is a very important attribute of a service. But not the only one. A service must be available, as well. That is the reason why our company has built a broad network of business managers and representatives, who take care of you day by day and are ready to find the optimal solution for your transport.

Carriage capacity and needed structure of the rolling stock

In order to fulfil your transport requirements, we surely have the widest and richest rolling stock fleet. We guarantee a safe and reliable transportation of any commodity to any tariff point. Apart from this, we invest large funds in adapting structure of the rolling stock fleet to your needs, which are carefully monitored.

Dense network of tariff points for handing in the consignments for conveyance and their delivery, which covers nearly the whole area of the Slovak republic

We have built a large network of tariff points, in which our employees are ready to satisfy your needs. At more than 380 places all over Slovakia you can hand in your consignment for conveyance, you can be delivered your consignment, you can be professionally advised or eventually provided with further services related to transportation.

Favourable price conditions and price flexibility

We esteem our customers and provide them with price advantages agreed in Agreement on prices, as well as other privileges from transporting specified volume of goods agreed in contract.

- > top quality catering services
- > special trained conference and event staff
- > Wi-Fi internet connection in public areas
- > desktop computers with high speed internet and 24 hour printing service

City Hotels

Bratislava Ružomberok Dolný Kubín

Dear Sirs,

Slovak Chamber of Commerce and Industry as a member of International Chamber of Commerce in Paris and member of Eurochambers in Brusel is a statutory acted in whole Slovakia, which represents and coordinates common interests of members in domestic and foreign business activities.

Slovak Chamber of Commerce and Industry was constituted by Law No. 9/1992 in 1992, raised on rich experiences from activities of Chambers of Commerce and Industry in the territory Slovakia, which history stretch back to the half of 19.century. In the year 2009 we celebrate the 159th anniversary of chamber system creation in Slovakia. Dimension of these chambers far and away exceeded the economy border what helped to keep national identity and economic, cultural and social life development in Slovakia.

Slovak Chamber of Commerce and Industry for whole bygone period was the important institution in the process of changes. Institution, which by respecting rules of game is recognized by others and using this position to assert interests of Slovak economy in abroad and to create position of business branch in domestic social environment.

The basic relation and structures for direct participation of Slovak business structures to global and European markets has been created by Chamber in the past. The creation of Slovak Committee for Business and Industry (BIAC) by OECD, Economic and Social Council (ECOSOC) as consultative body of European Commission and National Council of International Chamber of Commerce in Slovakia represent principal steps to worthwhile participation of slovak economic subjects on decision making process in international economy.

The Chamber as a business institution wants to support changes in regional and occupational structures for economic development of Slovak Republic, for development and business protection, development and international trade alleviation and increase competitiveness of Slovak business subjects. The Chamber will support development of private entrepreneurship, will contribute to the long term strategy of development of econ-

omy of Slovak republic. In close cooperation with National Bank of Slovakia chamber participated in the process of preparation of slovak companies to implementation of euro currency in Slovakia from January, 2009. Chamber will continue in supporting mainly SME's to penetrate more actively to the unified market of EU 27 as well as to the market of third countries.

The Chamber on behalf of service approach to own members and also non members and foreign partners has constituted 9 regional chambers in the residence of all regions and further 3 offices in important business centres of Slovakia. Chamber has created 6 consultative bodies, representing namely legislative, economic, foreign trade, industrial, informatic and regional. Apart of this there are 20 special departments with whole Slovakia activity, which are created based on principle relation of line of business.

Our today's role is to contribute to the economic and social transformation and to her reform to society of prosperity and perspective. The Chamber feels own liability also for active connection of Slovakia to global flow in the area of knowledge, finance, technology, industry and trade.

We are sensible to the fact, that in the period of continuing world economy internationalization and global process the international trade and international business are one of the most important attributes for assurance of steady and sustainable development.

I am sure that also this publication can partially contribute to improvement of the trade and economic relations and contacts of Slovak business subjects with foreign partners.

Peter MIHÓK
President SCCI

BRIDGE TO THE WORLD OF BUSINESS

Dear Partners,

Your decision to do business in Slovakia is a wise one. The Slovak Republic is well known for its high level of culture, qualified workforce, advantageous geographical position in the centre of Europe on the border between the West and the East, favourable taxation system, and extensive transport communication network. To do business in Slovakia means to hold a stake in the expansion of a region which, in the future, will have increasing significance for European trade and prosperity. Your investments and personal effort will therefore soon be rewarded with a fast return and high profit. During the course of your business activities, you will often need help and advice from someone who is familiar with this environment and who has been active in it from the very beginning. That is why the Slovak Chamber of Commerce and Industry (SCCI) wants to be your first point of contact and your partner when entering Slovakia. The SCCI is an independent public and legal institution which, in a similar way to the Chamber of Commerce in your home country, provides a full range of services to its members and other domestic business groups, as well as interested parties from abroad.

We will provide you with valuable contacts!

Some things that the SCCI will arrange for you:

- ✓ contacts with domestic businesses
- ✓ contacts with professionally-oriented sections
- ✓ finding suppliers
- ✓ finding manufacturers
- ✓ finding importers
- ✓ finding companies suitable for joint ventures and acquisitions
- ✓ the corporate profiles of companies and institutions
- ✓ in the event of your visit, recommendations and the organisation of meetings, including secretarial services, accommodation, transport, etc.
- ✓ advertising in the SCCI newsletter, which is distributed to all SCCI members, as well as foreign consular offices in the Slovak Republic, consular offices of the Slovak Republic abroad, representative offices of foreign companies in Slovakia, government institutions, and Slovak businesses.

We will prepare the ground for you!

For your trade mission in the Slovak Republic, the SCCI will arrange:

- ✓ meetings with Slovak businesses
- ✓ a comprehensive programme for mission participants (accommodation, transport, cultural programmes, and other services on request)
- ✓ background information required for negotiations

We will meet all your needs!

For seminars, lectures, or training the SCCI offers:

- ✓ the attendance of Slovak participants
- ✓ a venue, including the necessary equipment (audio-video), translations, and refreshments
- ✓ advertising, invitations, and media publicity
- ✓ accommodation, transport, and transfers

We will introduce you to a specific environment!

In addition, upon request, the SCCI can arrange:

- ✓ marketing studies
- ✓ statistical overviews
- ✓ consultations on legal, financial, taxation, and customs matters
- ✓ information on business conditions and opportunities
- ✓ translations of acts, rules, and regulations
- ✓ information on import regulations (limits, quotas, restrictions, and certifications)
- ✓ participation at exhibitions and trade fairs
- ✓ information about options and conditions for investing, capital investment, and private ownership in the Slovak Republic
- ✓ interpreting and translation services
- ✓ other services upon request

Arbitration Court

The Arbitration Court of the SCCI is an independent body that also offers its services to you. It resolves property claims between entrepreneurs arising from business and economic relations. It realises consultation and advisory activities to settle such claims.

Information on investment conditions in the Slovak Republic is available in all offices of the SCCI.

The Region of Banská Bystrica

The region of Banská Bystrica is located directly at the Centre of Slovakia and it comprises 8 districts. Its territory covers an area of 5.129 sq. km and its population is 397 356. The centre of the region is the city of Banská Bystrica with a population of almost 90 000.

The region is connected to the international road and rail network. Sliač airport, which is situated just ten minutes by car from Banská Bystrica, offers new possibilities for air transport of persons as well as goods.

Existence of thermal medicinal springs offers a significant possibility for development of tourism. In the spas of Sklené Teplice, Dudince, Sliač, Kováčová and Brusno are treated nervous, kinetic and digestive disorders and cardiovascular diseases. Natural and climatic conditions also create good opportunities for tourism, agro-tourism, winter and water sports and hunting.

Attention of tourists has been turned to urban monumental reservations in Banská Bystrica, Banská Štiavnica and Kremnica. Banská Štiavnica town, together with its surrounding area has been registered by UNESCO as the world cultural and natural heritage.

Among other interesting places belong castles in Zvolen, Víglaš and Slovenská Ľupča; fort in Bzovík; wooden church in Hronsek; St. John's church, where the geographical centre of Europe is located; folk architecture of the mining settlement Špania Dolina; attractive Čiernohorská narrow-gauge railway in Čierny Balog.

Raw material base of the region is various. Concerning the ore raw materials, the deposits of golden and silver ores, lead, copper and zinc are historically known around Banská Bystrica, Štiavnica and Kremnica.

Resources of non-metallic raw materials are more important from economic point of view. There are resources of building stones in the region such as limestone, dolomite limestone, ceramic clay, brick earth, gravel and gravel sand, basalt and perlite. Very important are also resources of wood substance.

Natural originality of the region is emphasized by state natural reservations, number of protected natural creations and localities. Geographically, the region includes National Park Low Tatras, protected scenic area Veľká Fatra, Poľana and Štiavnické Vrchy.

The education in the region is provided by the system of 338 elementary schools, 25 grammar schools and 61 secondary vocation schools. There are also two universities in the region. The University of Matej Bel in Banská Bystrica, specialised in the field of human sciences and the Technical University in Zvolen.

The region of Banská Bystrica is characteristic by notable diversification of industrial sphere, however, economic potential of individual districts has its own specifications.

The most important industrial sectors include heavy engineering and machinery, metallurgy, building industry, wood processing and paper industries, chemical and pharmaceutical industries, textile and food industries. 7% of the total number of Slovak enterprises operate on the territory of the region. There are 933 companies with foreign capital in the region. The most successful of them are Slovalco, a.s. Žiar nad Hronom, Knauf Insulation, s.r.o. Nová Baňa, Evonik Fermas s.r.o. Slovenská Ľupča, Witzemann Slovakia, spol. s r.o. Vlkanová, Küster - automobilová technika spol. s r.o. Vlkanová. Also foreign companies do business in the region, such as Coca Cola, McDonald's, Tesco Stores, Billa, Baumax, Ahold etc.

The priority of development of the region is to stay attractive for foreign investors. As the main reasons to invest in the region are considered:

- favourable location, proximity of an airport with an international statute
- ideal conditions for further development of tourism
- raw material and economic basis available
- freely available qualified and highly specialised labour force
- high proportion of persons with higher education

The Region of Košice

THE BASIC INFORMATION

The modern history of Košice Regional Chamber starts in the year 1992 when it was re-established according to the Act No. 9/1992 passed by National Council of Slovakia concerning chambers of commerce and industry. At the same time, The Slovak Chamber of Commerce and Industry was established as an independent legal subject. The present activities of the Košice Regional Chamber of Slovak Chamber of Commerce and Industry are very closely connected with the Chamber's history which goes to the year 1850. This fact proves, that Košice Regional Chamber is the oldest chamber in the territory of Slovakia and one of the oldest in Central Europe.

The Košice Regional Chamber represents member companies of the whole Košice Region and plays an important role in domestic and foreign trade with special attention to the markets of the Eastern Europe and Russia.

The Košice region is located in the eastern part of the Slovak Republic with an area that exceeds 6700 km² and has more than 765 thousand inhabitants. Nowadays, Slovak authorities have registered more than 30 thousand entrepreneurial entities with all types of business activities within the Košice Region. The most important kinds of industries allocated in the region are: metallurgy, engineering, chemistry and textile production.

PROVIDED ACTIVITIES AND SERVICES

- Co-operation with commercial and industrial chambers abroad (organising business missions, seminars, meetings on economic co-operation, publication of commercial promotions, seeking trading partners, exchange of commercial policy documents and other information),
- Consultancy on legal, financial, commercial and customs issues,
- Customs and certification services (issue of ATA Carnets, authentication of certificates of origin of goods, commercial invoices, powers of attorney, "force majeure", contracts, letters of reference),
- Librarian and information services (contact data of foreign and domestic companies and other information concerning trade conditions and doing business in selected countries).
- Educational activities (organising seminars, workshops and conferences on current issues of International trade, trade logistics and business.)
- Publication activities (specialised publications for support of business and reduction of trade risks, publication of current general standards in international trade, publications concerning technical, economic and legislative issues.)
- Facilitation in property disputes in international trade of domestic subjects at the Court of Arbitration of Slovak Chamber of Commerce and Industry in Bratislava.
- Promotion of members of Slovak Chamber of Commerce and Industry through the network of the International Chamber of Commerce in Paris and other information media in co-operation with chambers of commerce and industry abroad and branch offices of the World Trade Center.
- Mediation and publications of business opportunities, offers and other business information for foreign and domestic companies. Presentation and representation of members of the Chamber at domestic and foreign exhibitions and other events.
- Co-operation with representative offices of the Slovak Republic abroad.
- Co-operation with embassies of the Slovak Republic and their commercial sections.

The Region of Lučenec

Introducing the region of the Lučenec Regional Chamber

The region is situated in the southern part of central Slovakia. It consists of five districts: Lučenec, Rimavská Sobota, Veľký Krtíš, Poltár and Revúca. It is formed by historical areas of Novohrad and Gemer. The region is mostly a lowland and high-located places are situated only in the northern part. The heart of the region is the geomorphological whole of the Southern-Slovak Hollow. The area is bordered on the Krupinská planina (Krupina plain) in the north-west, on the Slovenské Rudohorie in the north and on the Slovenský Kras in the east. The area of the region is 4329 km with the population of 267 286 (2001) and with the average density of population 62 people to 1 km.

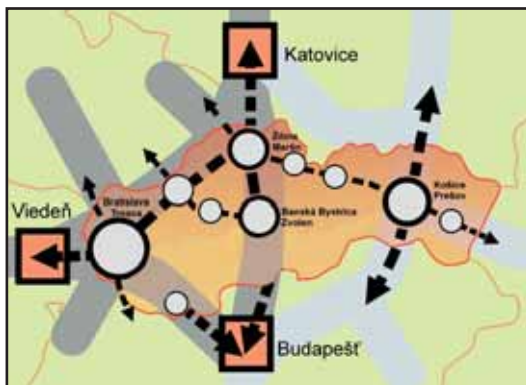

The southern border on the Hungarian Republic suggests good contact between the population of both border regions in industry and culture. That's why the Slovak-Hungarian Chamber composes inseparable part of Lučenec Regional Chamber. It provides economic, statistical, legislative information and requested addresses and contact details about Hungarian firms for its members.

The region is rich in raw materials. We can find here magnesite (the region comprises of more than 6% of the total world resources especially in the surroundings of Jelšava, Lúbeník and Hnúšťa), heat-resistant loams, basalt, ceramic raw material, natural decorative stone, steatite, asbestos, the raw materials of the silicate industry (diatomite, algin, etc.). Natural resources form an important potential of further production development of the region. These facts were the basis for creating Non-metallic raw materials Section of the Slovak Chamber in Lučenec. The section unites Slovak firms and institutions which deal with searching, exploiting and processing of non-metallic raw materials. Every three years the conference about non-metallic raw materials named EUROSILIKÁT is held in Lučenec. The main objective of the conference is to widen knowledge about new and unconventional non-metallic raw materials and their technological use.

Transport and energies

The region has the advantage of its location. It offers the shortest transport connection between western and eastern Slovakia and its metropolises Bratislava and Košice and connects links between Budapešť and Varšava. The region has

POLICY OF RESIDENTIAL STRUCTURE CENTRES

its local airport Bolkovce (8 km from Lučenec). Its location offers excellent conditions for a passenger transport as well as air sports. The airport has been the seat of the World Parachuting Championship for several times. The nearest international airport is in Sliač (60 km from Lučenec). As for the energy lines (oil-pipeline, gas-pipeline, power lines) the southern Slovak transport corridor is being used in the direction Bratislava - Nové Zámky - Šahy - Veľký Krtíš - Lučenec - Rožňava - Košice. Lučenec is the centre of local energy institutions such as gas industry, power stations and optical telecommunication lines.

Lučenec RC has permanent interest in the development of the region mainly in the transport and institutional infrastructure. In 2007, „Agency of SCCI for development of transport industry“ was established and initiate preparation of „Southern multimodal transport corridor“ which could join Bratislava with Kosice – two the most important economic centres of Slovakia and which present elongation of the route number 17 Paris – Bratislava to the Kosice and Lviv.

The Region of Nitra

The Nitra Region in the Context of Foreign Investments

Only very few Slovak regions have such excellent preconditions for the development of international contacts and cooperations as has the Nitra region. This region extends from the mountain ranges Povazsky Inovec and Tribec in the north to the river Danube in the south and geographically it covers the prevailing part of South-western Slovakia.

This region is identical with the chamber region of the Regional Chamber of Commerce and Industry Nitra. The chamber region begins approx. 80 km easternly from the Slovak capital Bratislava and is surrounded by the other chamber regions Trnava, Trenčín, Banská Bystrica and Lučenec. The centre of the region is the historically famous town Nitra with approx. 83 264 inhabitants. The total geographic surface of the region represents approx. 6 344 sqkm and the number of its population is about 706 758 residents. The total number of the entrepreneurial subjects in 2008 was approx. 64 513. The traditional industrial branches of the region are the machine engineering, metal processing, electrical engineering, chemical industry, building material production and the automobile industry. Based on the excellent climatic and soil conditions very important are also the agricultural production and the food processing industry.

Concerning the size of entrepreneurial subjects there are typical here small and middle sized companies, which went through the transformation process to the market economy easier and more flexibly as many big factories in other parts of the Slovak Republic. In the recent ten years there was established here a large number of new producing companies by local Slovak entrepreneurs, which are successful not only on the Slovak but also on international markets.

The objective advantages of the region have been invented also by well-known foreign companies, from which many are present here with strong investment projects. To the most important foreign investments of the region belong such manufacturing plants as for example the SE Bordnetze-Slovakia Ltd. /cable systems for automobiles/, HEINEKEN SLOVAKIA jsc. Hurbanovo /beer and malt production/, Giesecke & Devrient Slovakia Ltd. /smart cards/, Sluzba SIIX Electronics Ltd. /electronic appliances/, OSRAM jsc. Nove Zamky /electric bulbs/, Kongsberg Driveline Systems Ltd. Vrable /automobile parts/, MATADOR AUTOMOTIVE jsc Vrable /automobile parts/, Kongsberg SMURFIT KAPPA Obaly Sturovo jsc. /paper industry/, Enel SpA /production electric energy/, IDO EET Ltd. /special engineering production/. The most important investors came to the region from Germany, Austria and Holland. Besides these direct investments a large number of local industrial companies cooperate very intensively with partners in the European Union supplying for them semi-products or carrying out certain finalizing operations on their final products.

The region has very good transport infrastructure with dense network of roads which contributes to the further intensification of the international contacts. The administrative centre of the region the town Nitra has direct highway connection with the capital Bratislava and thus also with the Slovak-Austrian border. Thanks to this highway connection and the good geographical position three international airports /Bratislava, Vienna, Budapest/ are available within three hours. In the town Nove Zamky 30 km southernly from Nitra there is one international railway junction and in the suburb of the town Komárno is the second most important river port of Slovakia on the river Danube. After the opening of the Rhine-Main-Danube channel the region has direct ship connection with the Black and North Sea.

Nowadays, the main task of the Regional Chamber of Commerce and Industry Nitra in the international sphere is the further support of commercial and cooperational contacts between Slovak and foreign companies. This target is based on the high interest of the local entrepreneurial circles for the intensification of business contacts mainly with the countries of the European Union and of Middle Europe. It is expected that thanks to the geographical proximity and good infrastructure, this region will attract the interest of further foreign investors. Naturally, the Regional Chamber of Commerce and Industry Nitra will be always ready to equip them with basic orientation in the current Slovak environment and to provide professional advisory services in

all spheres of the economic life.

The Region of Prešov

The Prešov Regional Chamber of the Slovak Chamber of Commerce and Industry

The Slovak Chamber of Commerce and Industry, an integral part of which is the Prešov Regional Chamber (PRC SCCI), is an association of business concerns formed in order to boost the economic prosperity of its members, encourage their business activities both in Slovakia and abroad and assist in the creation of a positive business climate. The SCCI is a public institution established by Act 9/1992 of the National Council of the Slovak Republic and declared in Act 121/1996 of the National Council.

Membership in the Chamber is voluntary and its members are both natural and legal persons performing business activities in various fields of economy, with exception of agriculture and food industries.

The members have the right to:

- Use all services provided by the SCCI
- Service price discounts in accordance with the chamber's valid price list of services
- Propose and elect bodies
- Submit proposals for the improvement of the chamber's activities

The primary aim of PRC SCCI is to provide high-quality services to the business community in the Prešov region, to assist in tackling their business-related problems, to predict, analyse and define the needs of entrepreneurs and to offer solutions in the form of both tested and first-time services.

Provided standard services of the SCCI's Prešov Regional Chamber:

- Issuing of ATA carnets and certificates
- Counselling and consultations related with export and import of goods
- Counselling on the possibilities of financing business activities through the Structural Funds (ŠF)
- Services in the field of education
- Development of international trade relations - by organising trade missions at home and abroad
- Organisation of the participation of companies for fairs and exhibitions
- Publishing, distribution and sale of specialised publications

The plan for the Chamber's activities for each year is approved at the plenary session of the PRC SCCI and is outlined on our website www.po.sopk.sk. Members of the PRC SCCI are kept regularly informed about all events organised by the Chamber.

- the territory of the SCCI's Prešov Regional Chamber is the Prešov Self-governing Region
- the PRC SCCI also has an office in Poprad

The Region of Trenčín

Location & Accessibility

- Trans-European corridors North-West
- Mutual border with Czech Republic
- 1 hour access to Capital City perspective of new corridors
- Located in the northwestern part of the Slovak Republic
- Area of 4 502 sq. kilometers
- Building materials such as dolomites, limestone, building stone, lime marl, brick raw material, and decorative stone can be found in the region. Mineral waters and thermal springs are used as a source of high-quality drinking table water. Wood resources are also of importance.

Social characteristics

Number of inhabitants	599 831
Share of men / women	48,9/51,1 %
Economic active population	64,6 %
Average age	39,05 years
Average monthly salary	666 €
Unemployment rate	4,15 %

EU experience:

- more than 60 % of population (any)
- more than 1 % companies for more than one year

Structure of education:

Vocational & professional	44 %
High school	38 %
University degree	9 %
Basic education	9 %

Economic characteristics

The region has an industrial - agricultural character. Industry is prevailing. The main industrial fields are: mechanical engineering and components production for automobile industry, chemical production - rubber and plastic articles production, electrical engineering, glass industry, wood processing industry, food processing industry and service sector with dominance of tourism.

Number of registered businesses:

• legal entities	14 547
• tradesmen	46 105

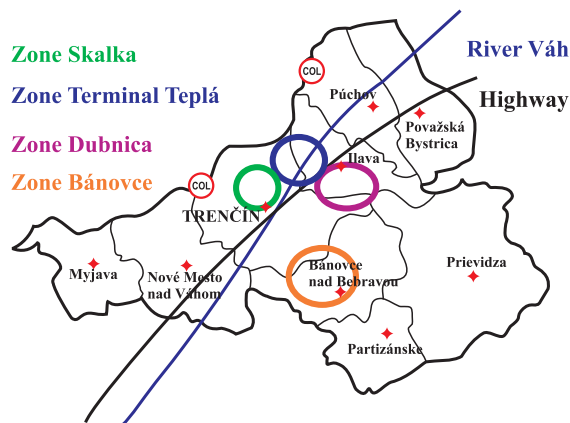

Active organizations classification according to size categories in Trenčín Region:

• Unknown number of employees	2 574
• Small enterprises: 0-49 employees	11 387
• Thereof microenterprises: 0-9 employees	9 234
• Middle enterprises: 50-249 employees	475
• Large enterprises: 250 and more employees	111

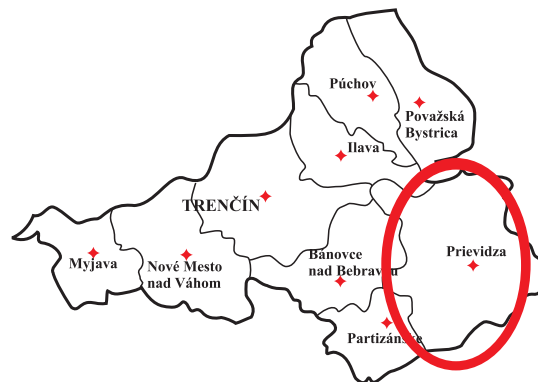

Emerging investment opportunities

Investors could find brown and green field opportunities for investments, skilled and educated labour force and well prepared infrastructure here. Active role in this area plays Trenčín Regional Chamber of SCCI in close cooperation with regional and local selfgovernmental units. It gives support to Slovak and foreign companies with regard to trade, legal, investment support. It provides legal advising and information on economic situation of the region. Special attention should be paid to the internet portal www.commerce-and-industry.com run by the Trenčín Regional Chamber of SCCI, where are available practical information on business issues and companies in the region.

The areas for industrial parks and terminal operations in the region Trenčín.

The locality of Upper Nitra with free areas.

Overview of the regional advantages

- good geographic location
- tradition of production

The Region of Trnava

Trnava Region

the region with its rich history, spiritual and cultural life, with fertile lowlands and protecting mountains, with rivers connecting people, the region of education, the region of good bread and good wine.

Location

Trnava region spreads across the south-western part of Slovakia. In the west it borders with the Czech Republic, in the south-west with Austria, in the south with Hungary. It takes to reach the capital Bratislava by car about 1 hour and the Vienna International Airport about 2 hours.

Transport and Infrastructure

The region has a well-developed road and railway transport system. Railways and highways connect the region of Trnava with Bratislava, The Czech Republic, Austria and Hungary. Public water pipes supply with drinking water 96,5 % of the region population, 52,8 % of households are connected to the public sewage system.

Education

53 technical and vocational schools provide machinery, transport, electrical, chemical, agriculture, food-preparation and other kinds of education. Secondary schools are aimed at business and services. The Slovak Technical University in Trnava offers degrees in industrial technologies, technical materials, industrial ecology, management and applied information systems. The Trnava University and The University of St. Cyril and Method offer possibilities to study in a large scale of humanities and natural sciences.

Economy

The region of Trnava has its tradition in both kinds of production: industrial and also agricultural. The industrial production includes machinery, /automobile industry/, electrical engineering, chemistry, glassmaking, printing, food industry. The main industrial centres are these towns: Trnava, Skalica, Senica, Piešťany and Hlohovec. The industry of agriculture and food is developed especially in the southern districts of Galanta and Dunajská Streda. The region of Trnava is a significant source of energy production for the whole area of Slovakia with its Nuclear Power Plant Jaslovské Bohunice and Water Power Plant in Gabčíkovo.

Trnava Region in numbers

Number of population:	558 978
Area:	4148 km ²
Number of profit companies:	10 218
Number of physical persons	
/small entrepreneurs/:	45 201
Number of companies with foreign capital:	2077
Rate of unemployment:	6 %
Rate of registered unemployment	3,76 %

Foreign investors in Region Trnava

Amylum Group /Holland/ • Boge /Germany/ • Danone /France/ • Hebel /Germany/ • INA Schaeffler KG /Germany/ • John's Manville /USA/ • Mariánské lázeňské lázně /Czech Republic/ • Eissmann Automotive /Germany/ • ON-Semiconductor /USA/ • PSA /France/ • Punch International, N V /Belgium/ • Sachs /Germany/ • Samson Europe N. V. /Belgium/ • Sony /Japan/ • Swedwood /Sweden/ • Vitana /Czech Republic/ Samsung Electronic Slovakia /S. Korea/ • Faurecia /France/ • Datalogic /Italy/ • Elektronika Invensys /France + UK/

The Region of Zilina NORTH-SLOVAKIA COUNTY

The situation of Slovak Republic's economy is frequently discussed in Slovakia and abroad, and the debate is greatly confused. The analysis is often mixed up with wishful thinking, simple lobbyism etc. A few neutral figures:

GDP IN CONSTANT PRICES – changes in %

**EXCHANGE RATE - Month - VI.
SKK / 1 CZK, Slovakia: Czechia**

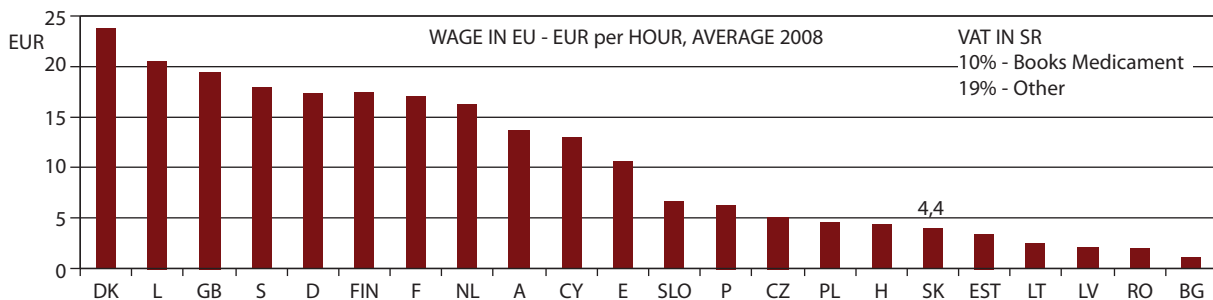

Sixteen years have elapsed since the Slovak Republic acquired independence. In these approximately 16 years the Slovak Republic had to prove evidence of its capability to manage the development of the county, assuring its political stability and economic development.

After three years of independence, the economy of the Slovak Republic acquired from the London „The Economist Intelligence Unit“ the best rating among Czech Republic, Poland and Hungary - countries in transition. The rating was supported mainly by agreed aims and practical economic policy of individual states within the goals of the International Monetary Found, macro-economic indicators etc.

The Slovak Chamber of Commerce and Industry (SCCI) as a public - legal institution plays the role of the major representative of the entrepreneurial and business sphere in the Slovak Republic. The Regional Chamber of the SCCI in Zilina represents and co-ordinates the interests of its members in matters of business activity inland and abroad, renders services and protects them from unfair business relations in the following districts (1999): Zilina, Cadca, Martin, Dolny Kubin, Liptovsky Mikulas, Kysucke Nove Mesto, Bytca, Turcianske Teplice, Ruzomberok, Namestovo, Tvrdozin. The members of Regional Chamber SCCI Zilina come from the most industrial sectors including engineering, metallurgy, building industry, wood processing, paper industries, chemical industries, textile, food industries, brick industries, energy etc.

Our County located at the North-West of Slovakia is one of the most industrialized areas in the republic. Zilina is the city of the County. The region is connected to the international trunks roads **E 50:** (Brest/F/-Brno-Zlin-Zilina-Martin-Ruzomberok-Liptovsky Mikulas-Presov-Kyjev,...)and **E75**(..., Koper-Rijeka, (Szeged, Belgrade) -**Bratislava-Zilina-Zwardon-B.Biala-Katowice-Warsaw-Minsk**..).

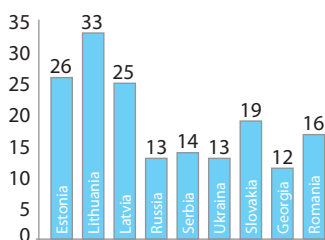

North-Slovakia is a transport junction of international railways systems in the direction Poland, Czechia, Ukraine or the South - Trieste, Rijeka, Belgrade, Koper. Air transport is secured via the **Airport at Zilina**. The distance of the Airport from Martin is 37 km. Until the year 2011 Zilina, Liptov, Turiec, Orava, Kysuce will be connected by highways to Košice and the Polish border (Zwardon, B. Biala).

NOMENCLATURE

1 Agricultural and Food Sector

Agrichemistry
Food Industry
Gastronomy
Professional Services in the Sector

2 Engineering Sector

Metallurgy and Smelting Industry
Materials and Components
Processing of Metals and Materials
Automatization and Control Systems
Air Conditioning and Ecotechnology
Car Industry
Transportation, Manipulation and Construction Technology
Special Technology
Power Engineering
Assembling and Servicing Companies

3 Others Industrial Sectors

Electrotechnics, Electronics
Building Sector
Chemical, Rubber and Plastic Industry
Wraps and Packaging
Paper and Cellulose
Textile and Clothing Industry
Wood and Furniture Industry
Pharmaceutics

4 Services

Transport and Logistics
Financial and Economic Services
Marketing and Media
Printing Trade and Digital Printing
Translation and Interpreting
Fairs and Exhibitions
Publishing Houses

5 Tourism and Hotels

Hotels, Accommodation Facilities
Spas
Agrotourism
Restaurants, Catering Establishments
Travel Agencies

NOMENKLATÚRA

1 Agrárny a potravinársky sektor

Polnohospodárstvo
Lesné hospodárstvo
Gastronómia
Odborné služby v sektore

2 Strojársky sektor

Hutníctvo a metalurgia
Materiály a komponenty
Spracovanie kovov a materiálov
Automatizácia a riadiace systémy
Vzduchotechnika a ekotechnika
Automobilový priemysel
Dopravná, manipulačná a stavebná technika
Špeciálna technika
Montážno-servisné spoločnosti

3 Ostatné odvetvia priemyslu

Elektrotechnika, elektronika
Stavebný sektor
Chemický, gumársky a plastikársky priemysel
Obaly a obalová technika
Papier a celulóza
Textilný a odevný priemysel
Drevársky a nábytkársky priemysel
Farmácia

4 Služby

Doprava a logistika
Finančné a ekonomické služby
Marketing and médiá
Polygrafia a digitálna tlač
Preklady a tlmočenie
Veľtrhy a výstavy
Vydavateľstvá

5 Cestovný ruch a hotely

Hotely, ubytovacie zariadenia
Kúpeľníctvo
Agroturistika
Reštaurácie, stravovacie zariadenia
Cestovné kancelárie

1

Agricultural and Food Sector
